FARIDABAD**

ASSIGNMENT (2026-2027)

UNIT - II

CLASS - X

DELHI PUBLIC SCHOOL, FARIDABAD

Class -X
Assignment
2026-2027

Unit II, Semester - 1

Subject : English

Section - A

A.1 Read the passage given below and answer the questions that follow.

1. Man does not live by food alone. Water is vital to human health and fitness. Although it is not a nutrient per se as are carbohydrates, fats, proteins, vitamins and minerals. It, in fact, is a key nutrient as no life is possible without it. Whereas we can do for weeks without food, we cannot live without water longer than a couple of days.
2. Water approximates 60 per cent of the body weight of human adults. The total amount of water in a man weighing 70 kilograms is approximately a little over 40 litres. It is an excellent solvent- more substances are soluble in water than in any other liquid known so far. This makes it an ideal constituent of the body fluids which sustain life supporting chemical reactions. It dissolves varied products of digestion and transports them to the rest of the body. Likewise, it dissolves diverse metabolic wastes and helps drain them out of the body. Besides, it performs a variety of functions-some well known and well understood while others not so well appreciated yet. The no less important role of water is to distribute/dissipate the body heat efficiently, thereby regulating body's temperature. Water accomplishes this role ideally because it has high thermal conductivity ensuring rapid heat transfer from one part to the other.
3. Above all, water has a high-specific heat, implying that it takes a lot of heat to raise the temperature of water and likewise much heat must be lost to lower its temperature.
4. Drinking a lot of water is an inexpensive way to stay healthy. Even excess of water is harmless. Water therapy- drinking a litre or so the first thing in the morning is kidney-friendly.
5. The water regulation in the body is affected by hypothalamus in two ways i.e.,
 - (i) by creating the sensation of thirst which makes us drink water and
 - (i) by controlling the excretion of water as urine. If water regulation fails, medical emergency ensues.

A.1.1 Based on your understanding of the passage, answer the questions given below.

- i. Water is vital to human health and fitness because:
 - a. man does not live by food alone
 - b. it is an excellent solvent
 - c. we cannot survive for more than a couple of days without it
 - d. it controls thirst and excretion of water as urine
- ii. Water is called a key nutrient because:
 - a. it dissolves different products of digestion
 - b. no life is possible without it
 - c. it carries products to the rest of the body
 - d. it raises temperature of the body
- iii. Water is an ideal constituent of the body fluids because:
 - a. it is an excellent solvent
 - b. it dissolves metabolic wastes
 - c. it drains wastes out of the body
 - d. it regulates excretion of urine

- iv. Water regulates body temperature efficiently as:
 - a. it circulates easily
 - b. it has high-specific heat
 - c. it dissolves food easily
 - d. it has high thermal conductivity
- v. What does the author mean when he uses the word 'regulation'?
 - a. Official rule
 - b. Control
 - c. Device for fair use
 - d. Worn or used as per rules
- vi. Which of the following statements is not true?
 - a. Water regulates body temperature
 - b. Excess water is not harmless
 - c. Excess water is not harmful
 - d. Water transports nutrients to the body
- vii. Which activity is considered as water therapy?
 - a. Its high thermal conductivity ensuring rapid heat transfer from one part to another
 - b. Drinking a litre of water in the morning
 - c. Drinking excess quantity of water
 - d. All of the above
- viii. What is the per cent of water content in a human body?

a. 60%	b. 40%
c. 80%	d. 70%
- ix. Which sentence conveys the opposite of 'similar'?
 - a. The crowd dissipated after the show was over.
 - b. This is the ideal solution to his problem.
 - c. We couldn't accomplish much even after trying many options.
 - d. The diverse solutions were all analysed by the committee.
- x. In para 2, the writer says The no less important role of water is....
The same meaning of the underlined phrase is conveyed which of the following:
 - a. Nevertheless, you can go ahead with the plan.
 - b. Less money was saved by him this year.
 - c. It is vital that we learn more about the project before investing in it.
 - d. The least you say, the better it would be.
- xi. Which slogan best conveys the message of the passage?
 - a. Drink Water, Live More
 - b. Preserve Water, Preserve Life
 - c. Clean water, Healthy living.
 - d. Save water and it will save you.

A.2 Read this passage carefully.

1. NAGAUER FAIR - 2026

The Nagaur Fair is the second biggest fair in India. Held every year between the months of January and February, it is popularly known as the Cattle Fair of Nagaur as this is where owners gather to trade animals. Approximately 70,000 bullocks, camels and horses are traded every year at this fair. The animals are lavishly decorated and even their owners dress up with colourful turbans and long moustaches. Besides cattle, sheep, horses and even spices are traded. Other attractions include the Mirchi Bazaar (largest red chilli market of India), sale of wooden items, iron-crafts and camel leather accessories. Several sports are also held during the fair. These include tug-of-war, camel races and bullock races. Nagaur fair is also famous for its jugglers, puppeteers, storytellers, etc.

2. ABHANERI FESTIVAL - 2026

'Abhaneri festival' is named after the village Abhaneri in the Dausa district which is around 90 km from Jaipur on the Agra road. This two-day festival has gained immense popularity amongst the tourists around the globe. This year, it will commence from 17th September to 19th September with various Rajasthani & local folk performances like Kachhi Ghor, Kalbeliya, Ghoomar, and Bhawai. Festival was initiated by Rajasthan Tourism in 2008, it is of great significance for Rajasthan. The village of Abhaneri was originally named Abha Nagri, meaning "city of brightness". The place is popular for the Chand Baori-step well, one of the largest step wells built over a thousand years ago. Be a part of the celebrations at Abhaneri and dip into the rustic charm of traditional Rajasthani music.

Answer the following questions, based on the passage above.

A.2.1 Based on your understanding of the passage, answer the questions given below.

- i. Why is the tag 'A Hub for Livestock Trading' suitable for the Nagaur fair instead of 'Colourful Celebrations'?
- ii. Complete the following with the correct option.
The Nagaur Fair is held _____.
 - a. quarterly
 - b. once in two years
 - c. annually
 - d. twice in a year
- iii. State which of the following is True.
 - a. Chand Baori is referred to as 'Abha Nagri'.
 - b. Chand Baori is a recent construction.
 - c. Chand Baori is an ancient stepwell.
- iv. What does the writer wish to convey by stating that the Abhaneri Festival 'has gained immense popularity among tourists'?
- v. What might be the most likely reason for the lavish decorations of animals at the Nagaur Fair?
 - a. To celebrate the cultural heritage of Rajasthan.
 - b. To attract buyers and showcase the animals for trading.
 - c. To compete for the best-decorated animal.
 - d. To honour the animals as part of a religious ritual.
- vi. Fill in the blank by choosing the correct option from those given in the brackets.

The Mirchi Bazaar is most likely an attraction at the Nagaur Fair because it provides a platform for _____ (tourists and organisers / farmers and traders) to display an essential spice.

- vii. If the Nagaur Fair highlights trading as its primary focus, what does the Abhaneri Festival most likely focus on?
 - a. Promoting local agriculture
 - b. Encouraging community interaction
 - c. Celebrating historical heritage
 - d. Showcasing regional culture
- viii. What might be the most likely reason why the Nagaur Fair spans across four days while the Abhaneri Festival ends in two days?

Section – B WRITING SKILLS

- B.1 At times someone you meet briefly can leave a lasting impression on you. Describe a helpful stranger you recently met on a train journey.
- B.2 A suspicious character was hanging around in your locality. In 100 words describe the character so as to aid the police in their investigation.
- B.3 Though there is are movements like 'Sarvashiksha Abhiyan' and 'Beti bachao, Beti Padhao' for enrolling of underprivileged children in schools, there are still many who do not go to school or drop out before completing their studies. It is indeed disturbing. You decide to write a letter to the editor of a newspaper expressing your views and the steps to be taken. Take ideas from the MCB unit 'Education'. Write the letter in about 120 words.
- B.4. The digital divide refers to the gap between those who have access to technology, such as the internet and digital devices, and those who do not. This disparity has significantly impacted education, especially for students from marginalised segments, by limiting their ability to access online resources and virtual classes. As Sakshi Tripathi, 120 Kailash Nagar, Batanpur, write a letter to the editor of a national daily highlighting the issue, its effects on students and teachers, and suggesting practical measures to bridge this gap.

Use your own ideas along with those from MCB Unit 2: Education, and write the letter.

Section – C (Grammar)

Integrated Grammar

- C.1 a. Read the following passage. Fill in the blanks by choosing the most appropriate options from the ones given below.

A person with a positive attitude (a) _____ that every cloud has a silver lining. He knows that (b) _____ suffering or problem has some hidden lesson in it. He feels that suffering is a blessing in disguise. His positive attitude makes (c) _____ life successful.

- | | | | |
|---------------|------------|---------------|-----------|
| (a) (i) know | (ii) knows | (iii) knowing | (iv) knew |
| (b) (i) any | (ii) all | (iii) every | (iv) no |
| (c) (i) their | (ii) there | (iii) her | (iv) his |

- b. Complete the passage by choosing the correct option from those given in brackets:

The city police (a) _____ decided to (b) _____ drivers (c) _____ attempt to overtake (d) _____ the left (e) _____ city roads. All drivers who (f) _____ this rule will be punished. The first offence will (g) _____ penalty. The second will incur (h) _____ of the driving license.

- | | | | |
|--------------|-------------|-------------|------------|
| a. (i) had | (ii) are | (iii) have | (iv) is |
| b. (i) take | (ii) taking | (iii) took | (iv) taken |
| c. (i) whose | (ii) who | (iii) which | (iv) those |
| d. (i) in | (ii) to | (iii) over | (iv) from |
| e. (i) in | (ii) over | (iii) on | (iv) by |

- f. (i) vitiate (ii) violate (iii) violent (iv) violence
 g. (i) inviting (ii) invitation (iii) invite (iv) invited
 h. (i) cancelling (ii) cancellation (iii) cancel (iv) cancelled

C.2

- a. Rearrange the following words and phrases to form meaningful sentences. The first one has been done for you as an example.

e.g. important / it is / to observe rules / traffic

It is important to observe traffic rules.

- i. not / children / below / of / the age / must / drive / eighteen years
 ii. protection / our / we / must / helmets / own / wear / for
 iii. phones / must / used / not / mobile / be / driving / while
 iv. traffic police / making / efforts / are / to increase / on the roads / safety
 b. Rearrange the following words and phrases to form meaningful sentences.
 i. an antidote / and pain / is / to stress / laughter
 ii. for toning / a good exercise / up / it is / facial muscles
 iii. are stabilised / is improved / body functions / and blood circulation
 iv. makes one / of friends / feel good / in making / a lot / laughter / and helps
 v. increases / it / longevity
 vi. negative laughter / at others / the only / is laughing

C.3

- a. Read the dialogue given below. Report it by completing the blanks that follow. Do not copy the whole sentence.

Raj Our school is celebrating its annual day tomorrow.

Sujay Who is your Chief Guest?

Raj Our Chief Guest is the honourable President himself.

Sujay That is quite incredible.

Raj told Sujay (i) _____. Sujay wanted to (ii) _____. Raj replied that the (iii) _____. Sujay was surprised and commented that it (iv) _____.

- b. Rejula Can I borrow a pen? I have forgotten mine.
 Teacher How can you be forgetful? Didn't I remind you yesterday?
 Rejula Yes ma'am I am sorry. I will not repeat the mistake.
 Teacher Borrow it for today.
 Rejula Thank you ma'am
 Rejula asked the teacher (i) _____ since she (ii) _____. The teacher chided her for being forgetful and asked her (iii) _____. When Rejula promised not to repeat the mistake the teacher permitted her (iv) _____. Rejula was relieved and thanked the teacher.

C.4

- a. The following passage has not been edited. There is one error in each line. Write the incorrect word and the correction. The first one done as an example.

	Incorrect	Correct
Trying to achieving your goals without an	achieving	achieve
action plan is like trying for drive across	a.	
the country within a map. The wasted	b.	
time, energy or money will probably	c.	
make you give in travelling before you	d.	

- go very far. Such goals is not goals at all.
They are merely fantasies. Success people
find out what it costs to make his dreams
come true. They don't complain when the effort made.
- b. While climbed up a mountain
a groups of young boys saw
an bear walking towards them.
One of them suggests that they
should climbed up a tree.
The boys quick followed his
instructions. They felt safe as he
watched a bear walk past
the tree. They climb down only after the bear
had disappeared in the woods.
- e.
f.
g.
h.
- Incorrect Correct
climbed climbing
- a.
b.
c.
d.
e.
f.
g.
h.

C.5 a. In the following paragraph one word has been omitted in each line. Write the missing word along with the word that comes before and the word that comes after it. Underline the word which you have supplied. The first correction has been done as an example.

- | | Before | Missing | After |
|---|---------|---------|-------------|
| I went to my friend last week 9 am and returned after | week | at | 9 am |
| two hours. Actually, I wanted his scooter a day. But | a. | | |
| I was shocked he politely refused to oblige me. I did not | b. | | |
| speak even a single word on subject and hastened to be | c. | | |
| back. Whenever I think the matter, I feel ashamed of my | d. | | |
| inability own a scooter when all my friends own a car. | e. | | |
| Perhaps, I mistaken in assessing what true friendship is. | f. | | |
| It a lesson in my life and I was supposed | g. | | |
| not forget it if I wanted success. | h. | | |
| b. We get all kinds information via magazines | kinds | of | information |
| and newspaper. We come to know various antisocial | a. | | |
| happenings the print media and | b. | | |
| are able keep ourselves alert. We also read | c. | | |
| about the rise fall of certain politicians, | d. | | |
| cricket matches, the state the stock exchange | e. | | |
| and various kinds jobs available. The amount | f. | | |
| of it formation that we can gather a newspaper | g. | | |
| is enormous. Read the whole newspaper completely | h. | | |
| would take hours. | | | |

Section – D (Literature)

The Letter

- a. Read the extract and answer the questions that follow.
1. 'Now he understood the meaning of love and separation. He could no longer enjoy the sportsman's pleasure and laughter.'
- i. Who is 'he' referred to?
- ii. What kind of life was he leading?

- iii. What led to his present state?
- iv. What do you understand by 'sportsman's pleasure'?
- 2. **'Tortured by doubt and remorse, he sat down in the glow of charcoal sigri to wait.'**
 - i. Who is tortured by doubt and remorse?
 - ii. What do you mean by the word 'remorse'?
 - iii. What is 'he' waiting for?
 - iv. How has his character transformed?

Short Answer Questions

1. 'Ali displays qualities of love and patience'. Give evidence from the story to support this statement.
2. Explain Ali's dictum, 'The whole universe is built up through love and the grief of separation is inescapable.'
3. How does the mood shift throughout the story, 'The Letter'?
4. Describe Ali's early days as a clever shikari.

Long Question

Both the stories "Two Gentlemen of Verona" and "The Letter" teach us not to lose hope and courage even in adverse situations. Write a letter to a friend justifying the statement with reference to the stories.

Ozymandias

1. Near them, on the sand,
Half sunk, a shattered visage lies, whose frown,
And wrinkled lip, and sneer of cold command
Tell that its sculptor well those passions read.
 - a. What do you understand by 'near them'?
 - b. What is 'visage'?
 - c. What impression do you get of the sculptor?
 - d. Pick out the odd word: frown, sneer, smile, glare
2. Nothing beside remains. Round the decay.
Of that colossal wreck, boundless and bare.
The lone and level sands stretch far away.
 - a. Why does the poet say 'nothing beside remains'?
 - b. What was the colossal wreck?
 - c. Which figure of speech is used in the above stanza?
 - d. Complete with a word from the above stanza - big: colossal:: _____: ruin

Short Answer Questions

1. What was written on the pedestal of the statue of Ozymandias? What does it show about his character?
2. 'The hand that mocked them and the heart that fed' - Explain
3. Briefly describe the statue of Ozymandias.
4. Bring out the irony in the poem.

Long Answer Question

1. 'Ozymandias' and 'Not Marble, nor the Gilded Monuments' are based on the theme of Time. Compare the two sonnets in terms of the manner in which Time is treated by the poets. Write your answer in about 150 words.

The Frog and the Nightingale

a. Read the extract given below and answer the questions that follow.

1. Dumbstruck sat the gaping frog.
And the whole admiring Bog
Stared towards the sumac, rapt.
And, when she had ended, clapped
 - i. The frog was dumbstruck _____.
 - ii. The phrase, 'whole admiring Bog' means _____
 - iii. Name the poetic device used in the second last line.
 - iv. What was the impact of the nightingale's song on the audience?
2. 'Well, poor bird she should have known
That your song must be your own
That's why I sing with panache
'Koo-oh-ah! ko-ash!
And the foghorn of the frog
Blared unrivalled through the bog.
 - i. Why is the nightingale referred to as 'a poor bird'?
 - ii. Why did the frog make her sing with all her might?
 - iii. Which trait of the frog's character is reflected in these lines?
 - iv. What does 'panache' mean?
3. 'Dearest frog' the nightingale
Breathed, 'This is a fairytale
And you are Mozart in disguise
Come to earth before my eyes'
 - i. Who was Mozart?
 - ii. Why does the nightingale call the frog 'Mozart'?
 - iii. What aspect of the nightingale's nature is seen here?
 - iv. What does the word 'fairytale' imply?

Short Answer Questions

1. How was the frog's joy both sweet and bitter?
2. Do you agree with the frog's inference of the nightingale's character? Give reasons for your answer.
3. What role does the bog's audience play in the downfall of the nightingale in the poem 'The Frog and the Nightingale'?
4. Contradict the fact that the nightingale did not deserve the frog's wrath.
5. Bring out the irony in the frog's statement - 'Your song must be your own'.

Long Question

Even though both, the frog from Vikram Seth's poem, The Frog and the Nightingale and Abel 's children from the play, The Dear Departed, display greed, there are differences. Elaborate, in about 150 words, how the greed of the frog and that of Abel's children differ in motivation, actions, relationship, and consequences.

Subject: Maths

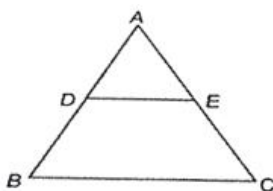

Ch 1 Triangles

Section A

Q1. If the diagonals of a quadrilateral divide each other proportionally, then it is a

- a. parallelogram
- b. rectangle
- c. square
- d. trapezium

Q2. In figure, $DE \parallel BC$. If $\frac{AD}{DB} = \frac{3}{2}$ and $AE = 2.7 \text{ cm}$, then EC is equal

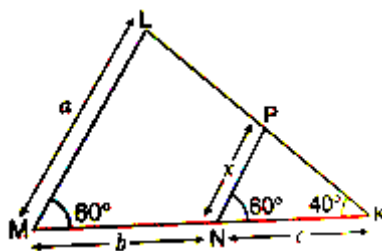

- a. 2cm
- b. 1.8cm
- c. 4cm
- d. 2.7cm

Q3. A vertical pole 10m long casts a shadow of length 5m on the ground. At the same time a tower casts a shadow of length 12.5 m on the ground. The height of the tower is

- a. 20 m
- b. 22 m
- c. 25 m
- d. 24 m

Q4. In figure:

(i) $x = \frac{ac}{b+c}$

(ii) $x = \frac{ab}{b+c}$

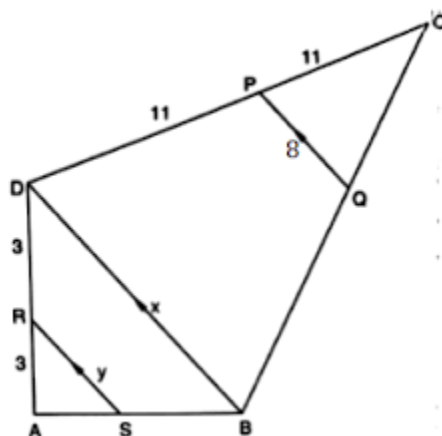

(iii) $\angle PKN = 90^\circ$

(iv) Angles K, M and L are in AP

Choose the correct option from the following:

- a. (i) and (iv) are correct
- b. (ii) and (iv) are correct
- c. (i) and (iii) are correct
- d. (ii) and (iii) are correct

Q5. In Fig., $RS \parallel DB \parallel PQ$. If $CP = PD = 11$ cm and $DR = RA = 3$ cm, $PQ = 8$ cm. Then the values of x and y are respectively

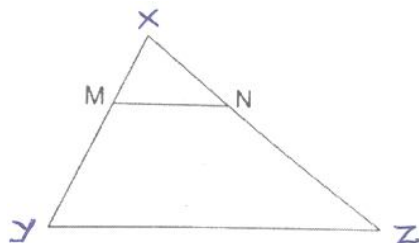

- a. 12,10 b. 14,6
- c. 10,7 d. 16,8
- Q6.** In $\triangle ABC$, $DE \parallel BC$, such that $AE = \frac{1}{4}AC$ and $AB = 6$ cm, then the length of AD is
- a. 2 cm b. 12 cm
- c. 1.5 cm d. 4 cm
- Q7.** In $\triangle PQR$ and $\triangle MNS$, $\frac{PQ}{NS} = \frac{QR}{MS} = \frac{PR}{MN}$, then symbolically we write
- a. $\triangle QRP \sim \triangle SMN$ b. $\triangle PQR \sim \triangle SMP$
- c. $\triangle PQR \sim \triangle MNS$ d. None of these
- Q8.** If $\triangle PQR \sim \triangle ABC$; $PQ=6$ cm, $AB=8$ cm and the perimeter of $\triangle ABC$ is 36 cm then perimeter of $\triangle PQR$ is
- a. 20.25 cm b. 27 cm
- c. 48 cm d. 64 cm
- Q9.**
- a. Both assertion (A) and reason (R) are true and reason (R) is the correct explanation of assertion (A).
- b. Both assertion (A) and reason (R) are true but reason (R) is not the correct explanation of assertion (A).
- c. Assertion (A) is true but reason (R) is false.
- d. Assertion (A) is false but reason (R) is true.
- Assertion (A)** : ABC is a triangle in which $AB = AC$ and D is a point on AC such that $BC^2 = AC \times CD$. Then $\triangle ABC \sim \triangle BDC$ by SAS similarity criterion.
- Reason (R)** : If two angles of one triangle are respectively equal to the two angles of another triangle, then the two triangles are similar. This is known as SAS similarity criterion.
- Q10.**
- a. Both assertion (A) and reason (R) are true and reason (R) is the correct explanation of assertion (A).
- b. Both assertion (A) and reason (R) are true but reason (R) is not the correct explanation of assertion (A).
- c. Assertion (A) is true but reason (R) is false.
- d. Assertion (A) is false but reason (R) is true.

Assertion (A) : In a $\triangle ABC$, D and E are points on sides AB and AC respectively, such that $BD = CE$. If $\angle B = \angle C$, then DE is not parallel to BC

Reason (R) : If a line divides any two sides of a triangle in the same ratio, then the line must be parallel to the third side

Section B

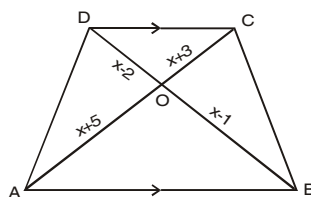

- Q11.** In the figure, $MN \parallel YZ$ and $XM = XN$. Show that $\triangle XYZ$ is an isosceles triangle.

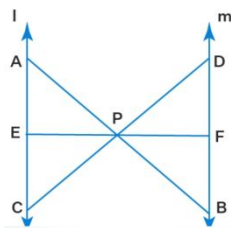

- Q12.** If in triangles ABC and DEF, $\frac{AB}{DE} = \frac{BC}{FD}$ and $\angle B = \angle D$, then these triangles will be similar by which criteria?

- Q13.** It is given that $\triangle DEF \sim \triangle RPQ$. Is it true to say that $\angle D = \angle R$ and $\angle F = \angle P$?

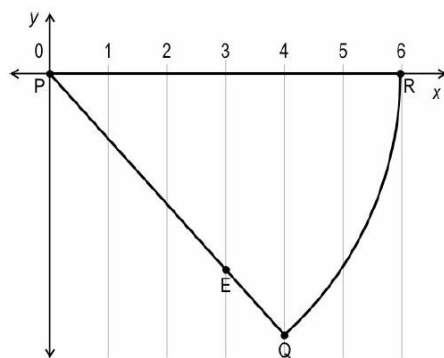

- Q14.** In the given figure, if $AB \parallel DC$, find the value of x.

- Q15.** In the given figure, $\ell \parallel m$ and line segments AB, CD and EF are concurrent at the point P. Prove that $\frac{AE}{BF} = \frac{AC}{BD} = \frac{CE}{FD}$.

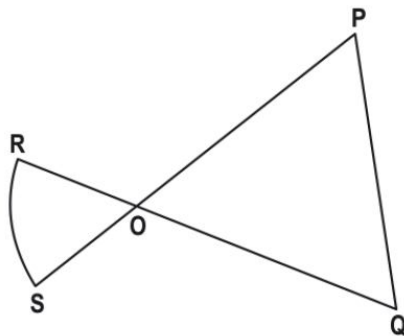

- Q16.** Shown below is a sector of a circle with centre P. All lengths are measured in cm and all vertical lines are parallel to Y-Axis.

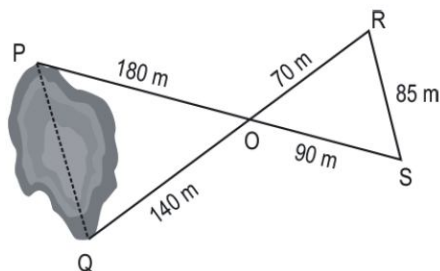

What is the length of PE?

- Q17.** In the figure below, OPQ is a triangle with $OP = OQ$. RS is an arc of a circle with centre O .

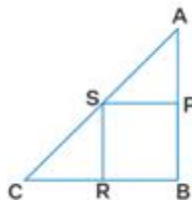

OSR is similar to OPQ . Is this statement true or false? Give reason to justify your answer.

- Q18.** A geologist asked his assistant Annie, if the length of the lake PQ can be found from the information shown below?

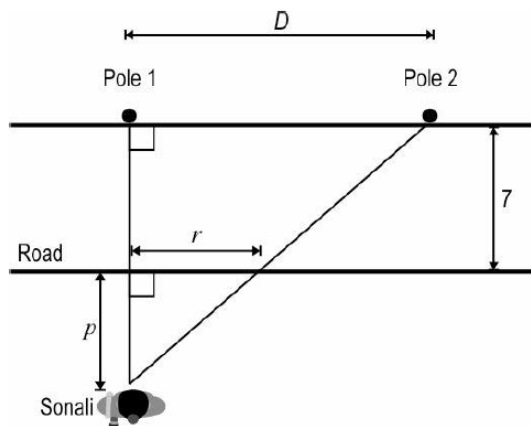

Annie said, "It is possible to find length of the lake, PQ ." Is Annie's statement correct? Justify your answer

- Q19.** Legs (sides other than the hypotenuse) of a right triangle are of lengths 16cm and 8cm. Find the length of the side of the largest square that can be inscribed in the triangle.

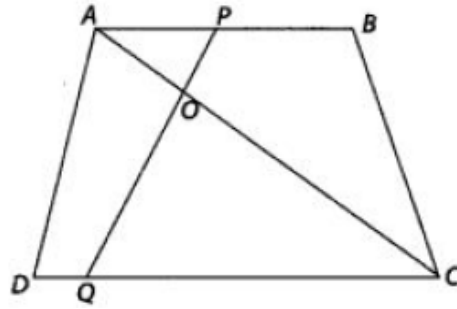

Section C

- Q20.** Sonali is standing on one side of a 7 m wide road as shown below.

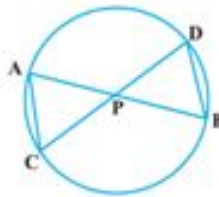

She wants to estimate the distance (D) between two light poles on the other side without crossing the road. Find her answer in terms of p and r .

- Q21.** In the figure if $AB \parallel DC$ and AC and PQ intersect each other at the point O , prove that $OA \cdot CQ = OC \cdot AP$.

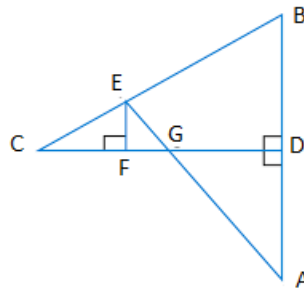

- Q22.** Two chords AB and CD intersect each other at the point P . Prove that

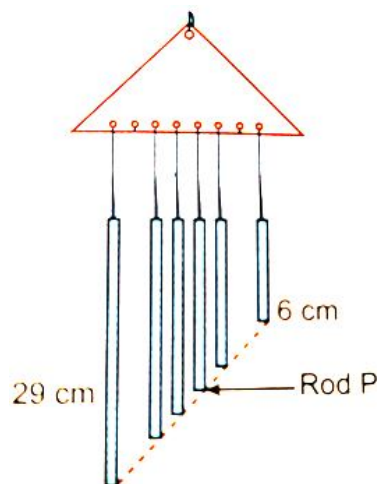

- (i) $\triangle APC \sim \triangle DPB$
- (ii) $AP \times PB = CP \times DP$

- Q23.** In the given figure, CD is the perpendicular bisector of AB . EF is perpendicular to CD . AE intersects CD at G . Prove that $\frac{CF}{CD} = \frac{FG}{DG}$.

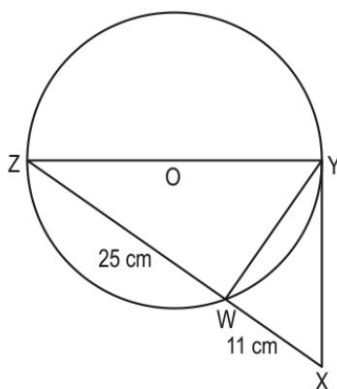

- Q24.** Harsha made a wind chime using a frame and metal rods. She punched 8 holes in the frame, each 2cm apart, and then hung 6 metal rods from the frame, as shown. The ends of the metal rods are aligned over a line, shown by the dotted line in the figure. If all the rods are straight and not swaying, then what is the length of Rod P?

Q25. In a triangle PQR, N is a point on PR such that $QN \perp PR$. If $PN \cdot NR = QN^2$, prove that $\angle PQR = 90^\circ$.

Q26. Shown below is a circle with centre O. YX is the tangent to the circle at Y.

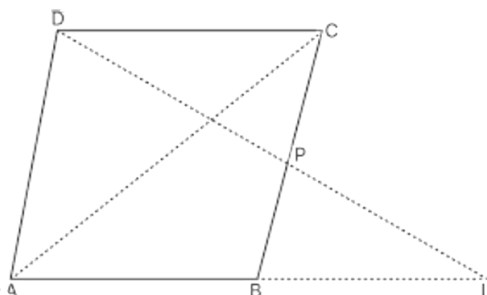

- i. Prove that $\triangle ZWY \sim \triangle ZYX$
- ii. Find ZY

Section D

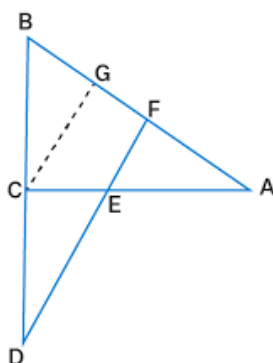

Q27. ABCD is a parallelogram, P is a point on side BC and DP when produced meets AB produced at L. Prove that

- (i) $\frac{DP}{PL} = \frac{DC}{BL}$
- (ii) $\frac{DL}{DP} = \frac{AL}{DC}$
- (iii) If $LP:PD=2:3$ find $BP:BC$.

Q28. O is the point of intersection of the diagonals AC and BD of a trapezium ABCD with $AB \parallel DC$. Through O, a line segment PQ is drawn parallel to AB meeting AD in P and BC in Q, prove that $PO = QO$.

Q29. In figure, line segment DF intersects the side AC of a $\triangle ABC$ at the point E such that E is the mid – point of CA and $\angle AEF = \angle AFE$. Prove that $\frac{BD}{CD} = \frac{BF}{CE}$.

- (ii) In Fig. 1, if $AB \parallel CD$ and $DO = 3x - 19$, $OB = x - 5$, $OC = x - 3$ and $AO = 3$, then find the value of x
- (iii) In Fig. 2, in $\triangle ABC$, if $PQ \parallel BC$ and $AP = 2.4$ cm, $AQ = 2$ cm, $QC = 3$ cm, and $BC = 6$ cm, then find $AB + PQ$.

Ch 2 Statistics

Section A

- Q1.** The mode and mean of a distribution are 12k and 15k, respectively. The value of median of the data is:
- a. 12 k b. 14 k
- c. 15 k d. 16 k
- Q2.** The sum of the class marks of the classes 20-30 and 50-60 is:
- a. 80 b. 70
- c. 60 d. 50
- Q3.** Consider the following frequency distribution of the heights of 60 students of a class

Height in cm	150-155	155-160	160-165	165-170	170-175	175-180
No. of students	15	13	10	8	9	5

The sum of the lower limit of the modal class and upper limit of the median class is

- a. 310 b. 315
- c. 320 d. 330
- Q4.** If mean = $(3 \text{ median} - \text{mode}) \times k$, then the value of k is
- a. 1 b. 2
- c. $\frac{1}{2}$ d. $\frac{3}{2}$
- Q5.** If value of each observation in a data is increased by 2, then median of new data is
- a. Increases by 2 b. Increases by $2n$
- c. Remains same d. Decreases by 2
- Q6.** For the following distribution the class mark of Modal class is

Class	0–5	5–10	10–15	15–20	20–25
Frequency	10	15	12	20	9

- a. 7.5 b. 17.5
c. 22.5 d. 12.5

- Q7.** If the difference of mode and median of a data is 24, then the difference of its median and mean is
- a. 12 b. 24
c. 8 d. 36
- Q8.** The mean of first ten natural numbers is
- a. 55 b. 45
c. 5.5 d. 4.5
- Q9.** **Assertion: (A)** The median of the following frequency distribution is 40

Variate	25	31	34	40	45	48	50	60
Frequency	3	8	10	15	10	9	6	2

Reason: (R) If we increase the frequency of initial and last variate, then their median remains same.

- Both assertion (A) and reason (R) are true and reason (R) is the correct explanation of assertion (A).
 - Both assertion (A) and reason (R) are true but reason (R) is not the correct explanation of assertion (A).
 - Assertion (A) is true but reason (R) is false.
 - Assertion (A) is false but reason (R) is true.
- Q10. Assertion: (A)** The mean of the first n odd natural numbers is n .

Reason: (R) The sum of the first n natural numbers is $\frac{n(n+1)}{2}$

- Both assertion (A) and reason (R) are true and reason (R) is the correct explanation of assertion (A).
- Both assertion (A) and reason (R) are true but reason (R) is not the correct explanation of assertion (A).
- Assertion (A) is true but reason (R) is false.
- Assertion (A) is false but reason (R) is true.

Section B

- Q11** In the following distribution table, find the sum of succeeding and preceding frequencies of the median class.

Marks	10-20	20-30	30-40	40-50	50-60	60-70
Frequency	10	12	20	11	14	15

- Q12.** Find the average of first ten prime numbers.
- Q13.** If $u_i = \frac{x_i - 25}{10}$, $\sum f_i u_i = 20$ and $\sum f_i = 100$ then find $\bar{x}$.
- Q14.** Find the mean of the following distribution

Class	3-5	5-7	7-9	9-11	11-13
Frequency	5	10	10	7	8

- Q15.** If mode of the data 2,4,6,7,5,6,10,6,7,2k+1, 9,7,13 is 7, then find the value of k.

Q16. At a shooting competition, the scores of a competitor were as given below:

- (i) What was his modal score?
- (ii) What was his median score?
- (iii) What was his mean score?

Score	1	2	3	4	5
Number of shots	3	6	4	7	5

Q17. For the following distribution, find the modal class.

Marks	Below 10	20	30	40	50	60
No. of Students	3	12	27	57	75	80

Q18. Find the unknown entries a, b, c, d, e and f in the following distribution of heights of students in a class

Height(in cm)	frequency	Cumulative frequency
150-155	12	a
155-160	b	25
160-165	10	c
165-170	d	43
170-175	e	48
175-180	2	f
	50	

Q19. Mrs. Garg recorded the marks obtained by her students in the following table. She calculated the modal marks of the students of the class as 45. Find the missing frequency.

Marks	0-20	20-40	40-60	60-80	80-100
Number of students	5	10	–	6	3

Q20. The following is the cumulative frequency distribution (of less than type) of 1000 persons each of age 20 years and above. Determine the mean age.

Age below (in years)	30	40	50	60	70	80
Number of persons	100	220	350	750	950	1000

Section C

Q21. The daily wages of 80 workers in a project are given below:

Wages (in ₹)	400-450	450-500	500-550	550-600	600-650	650-700	700-750
Number of workers	2	6	12	18	24	13	5

Find the median daily wages of the workers.

- Q22.** A survey regarding the height (in cm) of 51 girls of class X of a school was conducted and the following data was obtained. Find the median height.

Height (in cm)	Less than 140	Less than 145	Less than 150	Less than 155	Less than 160	Less than 165
No. of girls	4	11	29	40	46	51

- Q23.** Marks of 120 students of class 10 are as shown below. Find the mean marks.

Marks	No. of Students
10 and above	120
20 and above	105
30 and above	93
40 and above	70
50 and above	50
60 and above	27
70 and above	12
80 and above	7
90 and above	0

- Q24.** If the mean of the following frequency distribution is 91, and sum of frequency is 150, find the missing frequency x and y .

Class	0- 30	30- 60	60- 90	90- 120	120- 150	150- 180
Frequency	12	21	x	52	y	11

- Q25.** The median of the following data is 50. Find the values of p and q , if the sum of all the frequencies is 90.

CI	f
20-30	p
30-40	15
40-50	25
50-60	20
60-70	q

- Q26.** The following is the distribution of height of students of a certain class in a certain city:

Height (in cms) :	160-162	163-165	166-168	169-171	172-174
No. of students :	15	118	142	127	18

Find the mode of given data.

Section D

- Q27** The mean of the following distribution is 18. Find frequency of the class 19-21.

Class	11 - 13	13 - 15	15 - 17	17 - 19	19 - 21	21 - 23	23 - 25
Frequency	3	6	9	13	f	5	4

- Q28.** A survey conducted on 20 households in a locality by a group of students resulted in the following frequency table for the number of family members in a household:

Family Size	1 – 3	3 – 5	5 – 7	7 – 9	9 – 11
Number of families	7	8	2	2	1

Find the mode and median of the above data. Also find the mean using empirical relationship of measures of central tendency.

- Q29.** The median and the mode of the following wage distribution are as Rs 33.5 and Rs 34 respectively. Three frequency values are missing. Find the missing frequencies.

Wages	No. of persons
0-10	4
10-20	16
20-30	x
30-40	y
40-50	z
50-60	6
60-70	4
total	230

- Q30.** Find the missing frequencies f_1 , f_2 and f_3 in the following frequency distribution when it is given that $f_2:f_3$ is 4:3 and mean=50

Class Intervals	Frequency
0-20	17
20 – 40	f_1
40 – 60	f_2
60 – 80	f_3
80 - 100	18
Total	120

- Q31.** Find median and mode of the following monthly income distribution:

Monthly income (in ₹)	Number of employees (Frequency)
600-700	40
700-800	68
800-900	86
900-1000	120
1000-1100	90
1100-1200	40
1200-1300	26

Section E

- Q32.** A group of 71 people visited to a museum on a certain day. The following table shows their ages:

Age (in years)	Number of persons
Less than 10	3
Less than 20	10
Less than 30	22
Less than 40	40
Less than 50	54
Less than 60	71

On the basis of above information, answer the following questions.

- If true class limits have been decided by making the classes of interval 10, then find the first-class interval.
- Find the frequency of class preceding the median class.
- If the price of a ticket for the age group 30-40 is Rs30, then find the total amount spent by this age group.

Subject : Physics

TOPIC : The Human Eye and the Colourful World.

Section - A

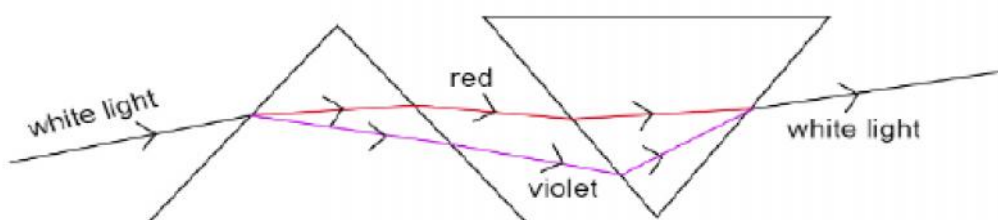

Very short answer type questions:

1. When the ciliary muscles of a normal eye are in their (i) most relaxed (ii) most contracted state. In which of the two cases is the focal length of the eye lens more?
2. State the term used for the smallest distance which eye can see without any strain.
3. Will a monochromatic light (having only single wavelength) show dispersion, on passing through a prism?
4. What is the value of far point and near point of a person having a)myopia b)hypermetropia?
5. Draw a diagram of bifocal lenses.
6. State the principle of cinematography.
7. Name all the phenomena responsible for the formation of rainbow.
8. Where is the image formed when object is kept at (1)25 cm and (2)infinity for a myopic eye?
9. Give one difference between dispersion and scattering of light.
10. Explain the function of following w.r.t. human eye
 - a. Pupil
 - b. Cornea
 - c. Iris
 - d. retina

Section-B

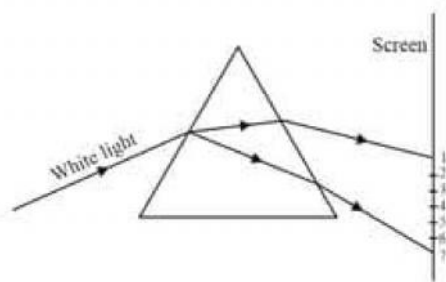

Short answer type questions :

11. When do we use bifocal lenses?
12. Explain presbyopia briefly. How is it corrected?
13. Explain briefly the conclusion obtained from the given figure. Name the scientist who first did this experiment.

14. Draw a neat and well labelled diagram showing refraction of white light as it passes through a glass prism.
15. Explain briefly the formation of rainbow with a neat and labelled diagram.
16. What is scattering of light.? State the factors affecting scattering of light.
17. How can change of size of eyeball be one of the reason for (i) myopic and (ii) hypermetropic eye?. How does this change of size affect the position of image in each case?
18. Name and explain the function of cells present on the retina of human eye.

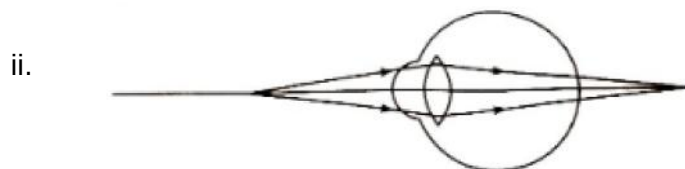

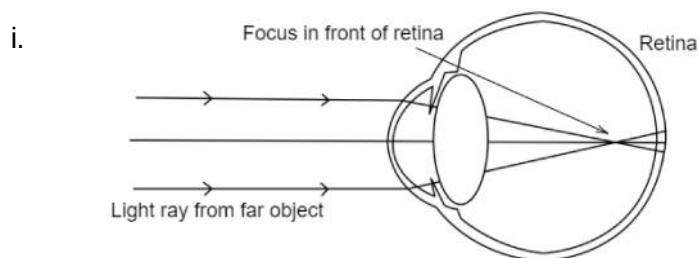

19. What is atmospheric refraction? State two effects of atmospheric refraction. Explain with the help of a diagram .
20. What is Tyndall effect. Explain with an example.

Section C

Long answer type questions and Application based questions.

21. What is power of corrective lens required to enable a person to see a distant object clearly if far point of his eye is 150 cm.
22. A man can not see an object 0.8m away from his eye. He wants correction of his eye so that he may see upto double of this distance. How will you help him? Draw a ray diagram in support of your answer.
23. A person is unable to see objects nearer than 50cm. He wants to read a book placed at a distance of 25cm. Find the nature, focal length and power of the lens, he requires for his spectacles.
24. Distinguish between Myopia and hypermetropia.
25. Estimate the range of power of accommodation of normal eye lens when near point is 0.25m and cornea as well as lens provide converging power of 40 D and 20 D respectively.
26. What is the maximum power of accommodation of an eye of a young adult having normal vision?
27. Identify the defect of vision shown in the given figures.

- a. State two causes of each of the defects.
 - b. How can they be corrected?
 - c. Show with the help of a diagrams.
28. Give reasons for the following :
- a. Stars appear higher than their actual position.
 - b. Clouds appear white.
 - c. Danger signals are made red in colour.
 - d. Stars appear to twinkle

Section - D
Assertion & Reason

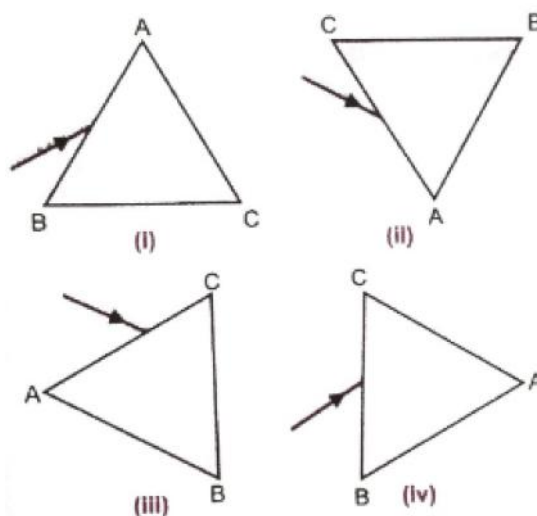

- a. Both (A) and (R) are true and (R) is correct explanation of the (A)
 - b. Both (A) and (R) are free but (R) is not the correct explanation of the (A)
 - c. (A) true but (R) is false.
 - d. (A) false but (R) is true
1. Assertion (A) : Far point of a healthy human eye is infinity.
Reason (R) : For a normal young adult eye, the maximum distance of distinct vision is 25 m.
 2. Assertion (A) : Lens of the eye has variable focal length.
Reason (R) : Curvature of eye lens is adjusted by the ciliary muscles which control the thickness of the eyelens as per need.
 3. Assertion (A) : Movie films show one new frame of picture every $1/24$ s. Each frame is shown twice or thrice.
Reason (R) : Human eye and brain have the ability to keep on seeing the image of an object for $1/16$ s even after the absence of the object. This is called persistence of vision.
 4. Assertion (A) : Iris is a coloured flexible muscular diaphragm behind the cornea.
Reason (R) : A big opening in the iris is called pupil.
 5. Assertion (A) : The outermost shell of the eye ball called sclerotic is white of the eye which protects the delicate parts of the eye.
Reason (R) : Outermost shell of eye has tough and opaque white tissues.
 6. Assertion (A) : Myopia is an eye defect due to which an eye can clearly see the nearby objects but not the distant objects.
Reason (R) : Longsightedness is an eye defect due to which an eye can clearly see the distant objects but not the nearby objects.
 7. Assertion (A) : Danger signals are red in colour.
Reason (R) : Velocity of red light in air is maximum, so signals are visible even in dark.
 8. Assertion (A) : A rainbow formed in sky usually after a rain shower is a natural example of the spectrum of white light.
Reason (R) : Tiny water droplets hanging in atmosphere act like tiny prisms and form spectrum due to reflection, dispersion and internal reflection of light.
 9. Assertion (A) : A rainbow is sometimes seen in the sky in rainy season only when observer's back is towards the Sun.
Reason (R) : Internal reflection in the water droplets cause dispersion and the final rays are in backward direction.
 10. Assertion (A) : A prism causes dispersion of light but a rectangular glass slab does not cause dispersion of light.
Reason (R) : Dispersion of light is the phenomenon of splitting of a beam of white light into its constituent colours.
 11. Assertion (A) : The scattering of longer wavelengths of light increases as the size of the particles increases.
Reason (R) : Large particles scatter lights of all wavelengths equally well,

Section - E
Case Study - 1

A prism is a transparent optical element with polished, flat surfaces that refract light, typically splitting white light into its constituent colors, a phenomenon known as dispersion. When a narrow beam of white light passes through a glass prism, it bends at two different points-upon entering and leaving-due to the change in medium, a process caused by refraction. Because white light is composed of various wavelengths (colors) and the speed of light within the glass varies with wavelength, different colors refract at slightly different angles. Violet light, having the shortest wavelength, bends the most,

while red light, with the longest wavelength, bends the least. This differential bending spreads out the white light into a colorful spectrum-red, orange, yellow, green, blue, indigo, and violet-demonstrating that white light is a mixture of colours.

1. A prism ABC (with BC as base) is placed in different orientations. A narrow beam of white light is incident on the prism as shown in the figure. In which of the following diagrams, after dispersion, the third colour from the top of the spectrum corresponds to the colour of the sky?
Options:

- a. (i)
 - b. (ii)
 - c. (iii)
 - d. (iv)
2. The sky appears dark to passengers flying at very high altitudes mainly because:
 - a. scattering of light is not enough at such heights.
 - b. there is no atmosphere at great heights.
 - c. the size of molecules is smaller than the wavelength of visible light.
 - d. the light gets scattered towards the earth.
 3. A student sitting on the last bench can read the letters written on the blackboard but is not able to read the letters written in his text book. Which of the following statements is correct?
 - a. The near point of his eyes has receded away.
 - b. The near point of his eyes has come closer to him.
 - c. The far point of his eyes has come closer to him.
 - d. The far point of his eyes has receded away.
 4. Which of the following statements is NOT true for scattering of light?
 - a. Colour of the scattered light depends on the size of particles of the atmosphere.
 - b. Red light is least scattered in the atmosphere.
 - c. Scattering of light takes place as various colours of white light travel with different speed in air.
 - d. The fine particles in the atmospheric air scatter the blue light more strongly than red. So the scattered blue light enters our eyes.
 5. In an experiment to trace the path of a ray of light through a triangular glass prism, a student would observe that the emergent ray:
 - a. is parallel to the incident ray
 - b. is along the same direction of incident ray
 - c. gets deviated and bends towards the thinner part of the prism
 - d. gets deviated and bends towards the thicker part (base) of the prism

Case Study - 2

It is possible that human eye may suffer from myopia and hypermetropia simultaneously. In this case both types of correcting lenses are required that is convex and concave. The spectacle worn by such a person has both types of lenses known as bifocal lenses. The lower part of the spectacle has reading lenses whereas upper part has lenses to see distant objects.

1. Myopia is also called
 - a. Near sightedness
 - b. Far sightedness
 - c. Any of these
 - d. None of these.
2. Hypermetropia stands for
 - a. Nearsightedness
 - b. long sighted ness
 - c. presbyopia
 - d. colour blindness.
3. The lower part of a bifocal lens is
 - a. convex
 - b. concave
 - c. any of (a) or (b)
 - d. plane glass only
4. The basic nature of eye lens is
 - a. Plano convex
 - b. concavo convex
 - c. concave convex
 - d. biconvex
5. A spectacle for myopic and hypermetropic person has two bifocal lenses because this helps to have better
 - a. three dimensional visualisation
 - b. field of view
 - c. relaxed eyes
 - d. all of these

Case Study - 3

Lens of eye is an elliptical biconvex lens made up of transparent crystalline material. This lens is harder in the middle and softer towards the edges. This lens has variable focal length because its curvature is adjustable with the help of muscles called ciliary muscles. These muscles control the thinness and thickness of the eye-lens according to the need. Eye lens is kept intact with the help of elastic suspensory ligaments. One end of this ligament is attached to the lens and the other end to the ciliary muscle. Shape of the eye-lens is changed to change the focal length of the lens so that a sharp real image is formed on the retina for the objects lying at different distances.

1. Eye lens is kept in position with the help of
 - a. elastic suspensory ligaments
 - b. ciliary muscles
 - c. transparent crystalline material
 - d. all of these.
2. Maximum refraction takes place at the _____.
 - a. eye lens
 - b. aqueous humour
 - c. cornea
 - d. none of these.
3. Shape of eye lens is
 - a. elliptical
 - b. spherical
 - c. Conical
 - d. none of these.
4. Rod cells help us to see
 - a. in dim light
 - b. in bright light
 - c. small objects
 - d. large objects
5. Ciliary muscles help in
 - a. adjusting the curvature of eye lens
 - b. varying focal length
 - c. Both (a) or (b)
 - d. None of these.

Subject : Chemistry

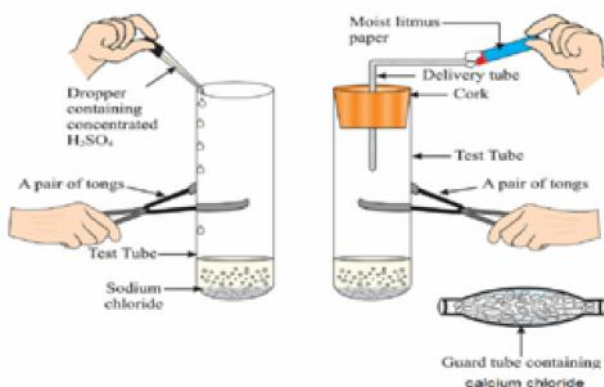

Ch 1. : ACID BASES & SALTS

SECTION - A

Q.1 Which among the following is a formula of chloride of Lime?

- a. CaOCl_2
- b. NH_4Cl
- c. NaCl
- d. KCl

Q.2 A gas is produced when concentrated H_2SO_4 is added to solid sodium chloride taken in a test-tube. The gas coming out through the delivery tube is passed over a dry blue litmus paper.

I. Blue colour of litmus changes into Red

II. Blue colour of litmus does not change

- a. I is correct
- b. II is correct
- c. I and II both are correct
- d. I and II both are wrong

Q.3 A white coloured powder is used by the doctors for supporting fractured Bones -

- i. It is Plaster of Paris
- ii. It is Gypsum

- a. I is correct
- b. II is correct
- c. Both I and II are correct
- d. Both I and II are wrong

Q.4 Which of the following best explains the difference between acids and bases?

- a. Acids and bases have an equal number of hydrogen ions but vary in the number of hydroxide ions.
- b. Acids have a decreased number of hydrogen ions; bases have an increased number of hydrogen ions
- c. Acids have an increased number of hydroxide ions; bases have a decreased number of hydroxide ions.
- iv. Acids have an increased number of hydrogen ions; bases have a decreased number of hydrogen ions.

- Q.5** Which of the following substance will not give carbon dioxide on treatment with dilute acid?
- Marble
 - Limestone
 - Baking soda
 - Lime

- Q.6** Which of the following statements are true for acids?

- Bitter and change red litmus to blue.
- Sour and change red litmus to blue.
- Sour and change blue litmus to red.
- Bitter and change blue litmus to red.

- Q.7** Which of the given options correctly represents the Parent acid and base of Calcium Carbonate?

Options	Parent Acid	Parent base
i.	HCl	NaOH
ii.	H ₂ CO ₃	Ca(OH) ₂
iii.	HCL	NaOH
iv.	HNO ₃	CaSO ₄

- Q.8** The colour of phenolphthalein in acidic medium is-

- Yellow
- Pink
- Colourless
- Blue

- Q.9** Generally, when certain metals react with an acid they release gas.

- Nitrogen
- Oxygen
- Hydrogen
- Argon

- Q.10** Milkiness of lime water disappear when excess CO₂ is passed due to the formation of-

- Calcium hydroxide
- Calcium chloride
- Calcium bicarbonate
- Calcium carbonate

- Q.11** What is formed when zinc reacts with sodium hydroxide?

- Zinc hydroxide and sodium
- Sodium zincate and hydrogen gas
- Sodium zinc-oxide and hydrogen gas
- Sodium zincate and water

- Q.12** The common name for the substance used as antacid-

- Washing soda
- Plaster of Paris
- Bleaching powder
- Baking soda

- Q.13** Rain is called acid rain when it's:

- pH falls below 7
- pH falls below 6
- pH falls below 5.6
- pH is above 7

- Q.14** When you clean a metal vessel with tamarind the reaction taking place is:

Metal Oxide+X----- Salt+Water. What is X here?

- Acid
- Base
- Hydrogen
- Carbon dioxide

- Q.15** Sodium hydroxide turns phenolphthalein solution

- pink
- yellow
- colourless
- orange

- Q.16** Sodium carbonate is a basic salt because it is a salt of a

- strong acid and strong base
- weak acid and weak base
- strong acid and weak base
- weak acid and strong base

- Q.17** Which one of the given is true, if a substance has a pH value of 7?
- The substance is a base
 - The substance is an acid
 - The substance is a neutral substance
 - Either (A) or (B)
- Q.18** Payal is writing some statements, choose the correct statement ?
- Phenolphthalein indicator gives colourless in acid solution, and pink colour in basic solution.
 - Sodium hydroxide solution turns red litmus to blue, so sodium hydroxide solution is basic in nature.
 - Methyl orange indicator gives red colour in acid solution, and yellow colour in basic solution.
 - All the above
- Q.19** To protect tooth decay we are advised to brush our teeth regularly. The nature of toothpaste commonly used is ?
- Basic
 - Corrosive
 - Acidic
 - Neutral
- Q.20** Which of the following is(are) true when HCl (g) is passed through water (i) It does not ionise in the solution as it is a covalent compound. (ii) It ionises in the solution. (iii) It gives both hydrogen and hydroxyl ion in the solution. (iv) It forms hydronium ion in the solution due to the combination of hydrogen ion with water molecule. ?
- (iii) and (iv)
 - (ii) and (iv)
 - (iii) only
 - (i) only

Section B

- Q.1** Write balanced chemical equation :
- Chlorine gas is passed through slaked lime.
 - Baking soda is heated.
 - Bleaching powder reacts with sulphuric acid.
 - Solution of NaOH reacts with zinc oxide.
 - Marble reacts with sulphuric acid.
 - Carbon dioxide is passed through aqueous solution of sodium carbonate.
 - Excess of CO_2 is passed through lime water.
 - Zinc reacts with hydrochloric acid.
- Q.2** A Metal carbonate x on reacting with an acid gives a gas which passed through a solution y gives the carbonate back. On the other hand, a gas that is obtained at anode during electrolysis of brine is passed on dry y, it gives a compound z used for disinfecting drinking water. Identify x, y and z.
- Q.3** Define the following, giving example
- | | |
|-------------------------|-----------------------------|
| a. Olfactory Indicators | b. Water of Crystallisation |
| c. Alkali | d. Acid |
| e. Hydrated salt | f. Efflorescence |
| g. Acid-base indicator | h. Neutral salt |
- Q.4** Identify the following :
- acid present in apple.
 - acid present in the stomach.
 - acid present in oranges or lemon.
 - acid present in sour milk or curd.

- e. commercial name of calcium sulphate hemihydrate.
- f. chemical gives relief after bee sting.
- g. gas evolved when acid reacts with metal
- h. chemicals used in making fire extinguisher
- i. acid injected into our body by a bee sting that causes pain.
- j. salts of hydrochloric acid.
- k. the base that is neither an oxide nor a hydroxide of metal.

Q.5 Give reasons for following :

- a. Aqueous solution of calcium carbonate is alkaline.
- b. Curd and sour substances should not be kept in brass and copper vessel.
- c. Dry HCl gas does not change the colour of the dry litmus paper.
- d. POP should be stored in air tight containers.
- e. Only aqueous solution of acid conduct electricity.
- f. HNO_3 , HCl show acidic characters in aqueous solution while solutions of compounds like $\text{C}_2\text{H}_5\text{OH}$ and glucose do not show acidic character.
- g. Why distilled water does not conduct electricity whereas rain water does not?

Q.6 Dilution of concentrated acids is an exothermic process. Explain.?

Q.7 Explain what happens when bleaching powder is exposed to air?

Q.8 When zinc, metal is treated with dilute solution of a strong acid, a gas is evolved, which is used in hydrogenation of oil. Name the gas write the chemical reactions involved. How will test the gas?

Q.9 What happens when hydrated cupric sulphate is heated?

Section C

Q.1 a. Name the compound which is obtained from baking soda and is used to remove permanent hardness of water.
 b. Write its chemical formula.
 c. What happens when it is recrystallised from its aqueous solution?

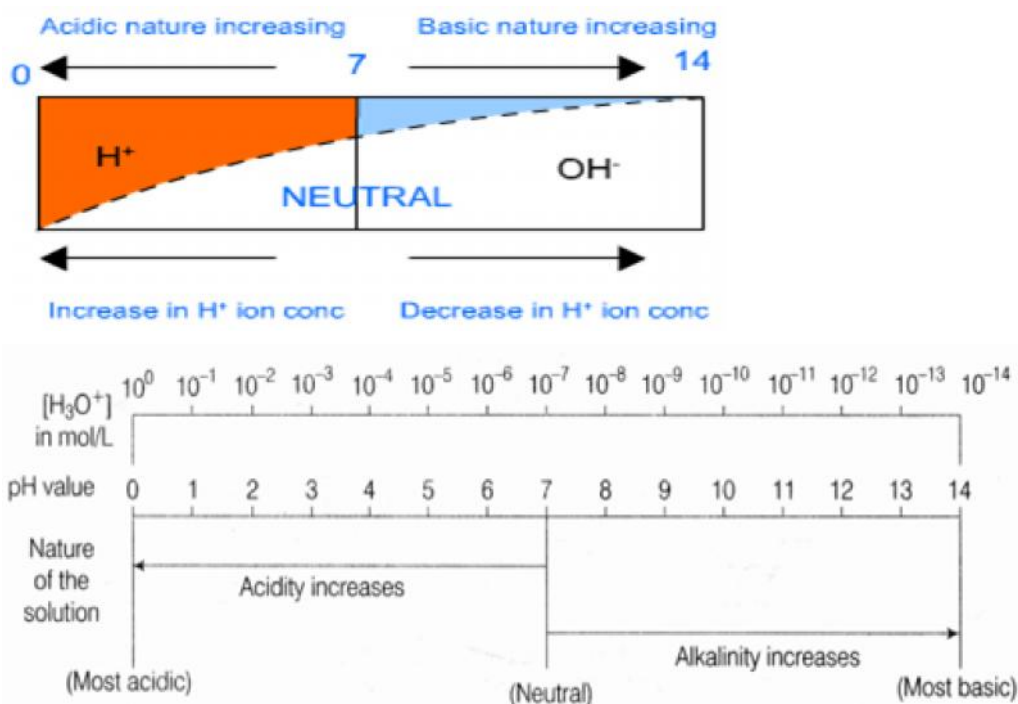

Q.2 a. Write the name given to bases that are highly soluble in water. Give an example.
 b. How is tooth decay related to pH? How can it be prevented?
 c. Why does bee sting cause pain and irritation? Rubbing of baking soda on the sting area gives relief.

Q.3 a. Crystals of a substance changed their colour on heating in a closed test tube but regained it after sometime when they were allowed to cool down. Name the substance and write its formula and explain the phenomenon involved.
 b. Name the compound whose one formula unit is associated with 10 water molecules. How is it prepared? Give equations of related reactions. Give two uses of the compound.

Q.4 Why do we need to brush our teeth with tooth paste after eating sugary food?

Q.5 a. What pH do you expect for the following salt solutions and why ? NaCl , CuSO_4 , and Na_2CO_3
 b. Alcohol and glucose also contain hydrogen but do not conduct electricity. Why?

Q.6 Refer the given representation of pH scale and answer the following questions -

- What would be the H_3O^+ ion conc. of a substance having pH of 3?
- What would be the nature of the substance having a pH of 11?
- Milk goes sour by lactobacillus bacteria if it's pH falls below

Section D (Analytical Questions)

- Q.1**
 - Write the chemical name and formula of marble.
 - It has been found that marbles of Taj are getting corroded due to development of industrial areas around it. Explain this fact giving a chemical equation.
 - What happens when CO_2 is passed through lime water?
 - What happens when CO_2 is passed in excess through lime?
- Q.2** Two solutions P and Q have pH values of 5 and 8, respectively. Which will have a higher concentration of H^+ ions?
- Q.3** What is the pH of a neutral solution?
- Q.4** To. a solution of sodium hydroxide in a test tube, two drops of phenolphthalein are added.
 - State the colour change observed.
 - If dil HCl is added dropwise to the solution, what will be the colour change?
 - On adding few drops of NaOH solution to the above mixture the colour of the solution reappears. Why?
- Q.5** A baker found that cake he has made is very hard. Which ingredient he has forgotten to mix with cake? What is the role of that ingredient?
- Q.6** A milkman adds a very small amount of baking soda to fresh milk.
 - Why does he shift the pH of the fresh milk from 6 to slightly alkaline.
 - Why does this milk take a long time to set as curd.

- Q.7** The pH of a soil A is 7.0 and that of soil B is 4. Which of these should be treated with chalk and why?
- Q.8**
- The aqueous solution of a substance X is used for white washing. Write down the chemical reaction involved in the process.
 - Under what conditions of soil do you think a farmer would spread the soil of his field with quick lime or slaked lime.
- Q.9**
- What is baking powder? How does it make the cake soft and spongy?
 - In addition to sodium hydrogen carbonate, baking powder contains a substance X. Name the substance X. What is the role of substance X in the baking powder?
 - State the two uses of sodium hydroxide.
- Q.10** Equal length of magnesium ribbon are taken in two test tubes 'A' and 'B'. H_2SO_4 is added to test tube 'A' and H_2CO_3 in the test tube 'B' in equal amounts:
- Identify the test tube showing vigorous reaction.
 - Give reason to support your answer.
 - Name the gas liberated in both the tubes. How will you prove its liberation?
 - Write chemical equations for both reactions.
 - Out of the two acids taken above
 - which one will have lower pH value.
 - lower H^+ concentration respectively.

Section E

- Q.1** Assertion (A): Washing soda is sodium carbonate hexahydrate.
Reason : Chlorine gas is used for the preparation of bleaching powder.
- Q.2** Assertion (A): Copper sulphate crystals contain water of crystallisation.
Reason (R) : Plaster of Paris is $\text{CaSO}_4 \cdot \text{H}_2\text{O}$.
- Q.3** Assertion (A): Plaster of Paris is used in toys, material for decoration and for making surfaces smooth.
Reason (R) : Bleaching powder is used for making drinking water free from germs.
- Q.4** Assertion (A): Salt of a strong acid and strong base have a pH less than 7.
Reason (R) : Seawater contains many salts dissolved in it.
- Q.5** Assertion (A): Hydrochloric acid helps in the digestion of food in the stomach.
Reason (R) : The strength of an acid depends upon the number of H^+ ions.
- Q.6** Assertion (A): Antacids are used to get rid of pain caused by indigestion.
Reason (R) : Antacids neutralise the excess acid produced in the stomach.
- Q.7** Assertion (A): Tooth decay starts when the pH of the mouth is lower than 5.5.
Reason (R) : Bee-sting leaves an acid which causes pain and irritation.
- Q.8** Assertion (A): The strength of acids and bases depends on the number of H^+ ions and OH^- ions produced.
Reason (R) : The process of dissolving an acid or base in water is highly endothermic.
- Q.9** Assertion (A): When pH of rain water is more than 7, it is called acid rain.
Reason (R) : When electricity is passed through an aqueous solution of sodium chloride, it decomposes to form H_2 and Cl_2 gases.
- Q.10** Assertion (A): The important products from chloro-alkali process are hydrogen, chlorine and sodium hydroxide.
Reason (R) : Baking powder is a mixture of baking soda and citric acid.

Case study questions

Q.1 Chemically, plaster of paris (POP) is calcium sulphate hemihydrate, i.e., containing half molecule of water of crystallisation. It is represented by the formula, $\text{CaSO}_4 \cdot \frac{1}{2}\text{H}_2\text{O}$. Half molecule of water of crystallisation means that one water molecule is shared by two formula units of CaSO_4 . Hence, we also represent its formula as $(\text{CaSO}_4)_2 \cdot \text{H}_2\text{O}$. The name, Plaster of paris, was given to this compound because for the first time, it was made from gypsum which was mainly found in Paris.

1. The difference of water molecules in gypsum and plaster of Paris is
 - a. $\frac{5}{2}$
 - b. 2
 - c. $\frac{1}{2}$
 - d. $\frac{3}{2}$
2. Plaster of Paris hardens by
 - a. giving off CO_2
 - b. changing into CaCO_3
 - c. combining with water
 - d. giving out water.
3. Which of the following statements is incorrect?
 - a. Plaster of Paris is used to ornate designs on walls and ceilings
 - d. Setting of plaster is due to its hydration into gypsum
4. Select the incorrect statement with respect to gypsum
 - a. It is slightly soluble in water
 - b. It is also known as alabaster
 - c. On heating gypsum at 373 K, it loses water molecules and becomes calcium sulphate hemihydrate
 - d. Chemical formula of gypsum is $\text{CaSO}_4 \cdot \frac{1}{2}\text{H}_2\text{O}$
5. Plaster of Paris is obtained by
 - a. adding water to calcium sulphate.
 - b. adding sulphuric acid to calcium hydroxide
 - c. heating gypsum to a very high temperature
 - d. heating gypsum to 100°C

Q.2 Read the given passage and answer the questions based on passage and related studied concepts. The teacher was conducting practicals in laboratory divided the students in three groups and gave them various solutions to find their pH and classify them into acidic, basic and neutral solutions.

Group A: Lemon juice, vinegar, colourless aerated drink.

Group B: Tomato juice, coffee, ginger juice.

Group C: Sodium hydroxide, sodium chloride lime water.

- a. For the solution provided, which group is/are likely to have pH value (i) < 7 (ii) > 7 .
- b. List two ways of determining pH of a solution.
- c. Explain, why the sour substances such as lemon juice are effective in cleaning the tarnished copper vessels.

OR

"pH has great importance in our daily life." Justify this statement

Q.3 Salt is an ionic compound that results from the neutralization reaction of an acid and a base. It is composed of related numbers of cations (positively charged ions) and anions (negative ions) so that the product is electrically neutral (without a net charge). They may be simple salts such as NaCl, KCl, and Na_2SO_4 ; acid salts like NaHCO_3 .

- What happens when a solution of an acid is mixed with a solution of a base in a test tube?
 - Temperature of the solution decreases
 - Temperature of the solution increases
 - Temperature of the solution remains the same
 - Salt formation takes place
 - (i) and (iv)
 - (i) and (iii)
 - (ii) only
 - (ii) and (iv)
- When hydrogen chloride gas is prepared on a humid day, the gas is usually passed through the guard tube containing calcium chloride. The role of calcium chloride taken in the guard tube is to
 - absorb the evolved gas
 - moisten the gas
 - absorb moisture from the gas
 - absorb Cl^- ions from the evolved gas
- Which one of the following salts does not contain water of crystallization?
 - Blue vitriol
 - Baking soda
 - Washing soda
 - Gypsum
- What is formed when zinc reacts with sodium hydroxide?
 - Zinc hydroxide and sodium
 - Sodium zincate and hydrogen gas
 - Sodium zinc-oxide and hydrogen gas
 - Sodium zincate and water
- Sodium carbonate is a basic salt because it is a salt of a
 - strong acid and strong base
 - weak acid and weak base
 - strong acid and weak base
 - weak acid and strong base

Q.4 There are so many important compounds known, which have some characteristic properties like Bleaching powder used as an disinfectant, POP used for joining fractured bones, Baking powder used for making dhoklas and baking cake, Sodium chloride as a table salt etc. These properties make these compounds very useful in our daily routine.

- Bleaching powders chemical name is
 - calcium hypo oxychloride
 - calcium oxychloride
 - calcium chloride
 - calcium chloro oxide
- The ratio of the water molecule in plaster of paris and gypsum is
 - 3:1
 - 1:3
 - 1:4
 - 4:3

3. Baking powder is
 - a. sodium carbonate + sodium tartaric
 - b. sodium bicarbonate + sodium tartaric
 - c. sodium carbonate + tartaric acid
 - d. sodium carbonate + sodium benzoate
4. Washing soda is prepared by:
 - a. Solvay's process
 - b. Hessen clever process
 - c. Castner-kellner process
 - d. None
5. The compound formed when POP combines with water: '
 - a. Quicklime
 - b. Soda lime
 - c. Gypsum
 - d. Bleaching powder

Q.5

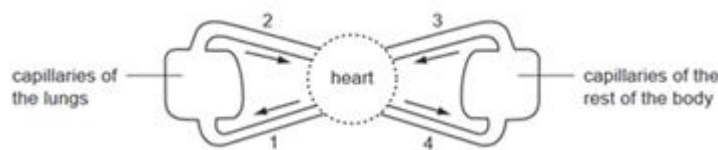

The pH is quite useful to us in a number of ways in daily life. Some of its applications are: Control of pH of the soil : Plants need a specific pH range for proper growth. The soil may be acidic, basic or neutral depending upon the relative concentration of H^+ and OH^- . The pH of any soil can be determined by using pH paper. If the soil is too acidic, it can be corrected by adding lime to it. If the soil is too basic, it can be corrected by adding organic manure which contains acidic materials.

1. When black copper oxide placed in a beaker is treated with dilute HCl, its colour changesto
 - a. white
 - b. dark red
 - c. bluish green
 - d. no change.
2. P is an aqueous solution of acid and Q is an aqueous solution of base. When these two are diluted separately, then
 - a. pH of P increases while that of Q decreases till neutralisation.
 - b. pH of P decreases while that of Q increases tillneutralisation.
 - c. pH of both P and Q decrease.
 - d. pH of both P and Q increase.
3. Which of the following acids is present in bee sting?
 - a. Formic acid
 - b. Acetic acid
 - c. Citric acid
 - d. Hydrochloric acid
4. Sting of ant can be cured by rubbing the affected area with soap because
 - a. it contains oxalic acid which neutralises the effect of formic acid
 - b. it contains aluminium hydroxide which neutralises the effect of formic acid
 - c. it contains sodium hydroxide which neutralises the effect of formic acid
 - d. none of these (v) The pH of soil X is 7.5 while that of soil Y is 4.5.
Which of the two soils, should be treated with powdered chalk to adjust its pH?
 - a. X only
 - b. Y only
 - c. Both X and Y
 - d. none of these

SECTION A

1. Name the blood cells which perform the following functions:
 - a. Carry oxygen in our body.
 - b. Help in blood clotting at the site of injury.
2. a. The diagram shows a double circulatory system.

Which blood vessels carry oxygenated blood?

- b. Name the instrument used to measure blood pressure.
3. a. What is lymph?
b. Why is lymph called "tissue fluid"?
4. a. Name the elements of Xylem and Phloem.
b. What will happen to a plant if its xylem is removed?
5. a. What is Translocation? In what form is food transported in plants?
b. State the significance of companion cells in phloem.
6. a. Define Transpiration.
b. What is Ascent of sap?
7. a. State the location of kidneys.
b. Name the primary toxic waste in our blood filtered by the kidneys.
c. Name the capillary cluster formed by the branch of renal artery associated with the bowman's capsule.
8. a. Why is excretion important?
b. Which structure acts as the basic filtration unit in kidneys?
9. a. Name two substances in the initial filtrate which are selectively reabsorbed by the body.
b. Which structure in "Human Excretory System" stores urine?
c. Depict in the form of a flowchart the path of the urine formed in each kidney until it is finally passed out through the urethra.
10. a. Explain in brief two ways by which leaves of a plant help in excretion.
b. State the role played by vacuoles in plants for excretion.

SECTION B (FC)

1. a. List the various components of transport system in human beings? Also state their respective functions?

- b. Give reasons:
 - i. Ventricles have thicker muscular walls compared to auricles.
 - ii. Mammals and birds show double circulation.
 - iii. Arteries have thick and elastic walls whereas veins have valves.
2. a. Define double circulation.
- b. Why is it necessary to separate oxygenated and deoxygenated blood in mammals and birds?
- c. Tabulate the differences between arteries and veins.
3. a. How are water and minerals transported in plants? Explain.
- b. How does translocation occur in plants? Explain.
4. a. How is the amount of urine produced regulated?
- b. State two functions of the kidneys.
5. a. What will happen if platelet count goes down very low in our body?
- b. What is lymph? State its significance.
6. a. Why plants can use relatively slower transport systems compared to animals?
- b. What is Transpiration? State its significance in plant body.
7. What would be the consequences of deficiency of haemoglobin in humans?
8. Tabulate the differences between xylem and phloem?
9. Plants use a variety of techniques to get rid of waste material justify this statement giving any four ways.
10. Describe the structure of nephron and explain the steps involved in urine formation.

SECTION C

1. Draw well labelled diagrams of the following: (FC)
 - a. Human Heart.
 - b. Flow of blood in human body showing the two types of circulations.
 - c. Schematic representation of transport and exchange of oxygen and carbon dioxide.
 - d. Nephron.

SECTION D

ASSERTION REASON QUESTIONS:

For the below given questions, two statements are given- one labelled Assertion (A) and the other labelled Reason (R). Select the correct answer to these questions from the codes (a), (b), (c) and (d) as given below:

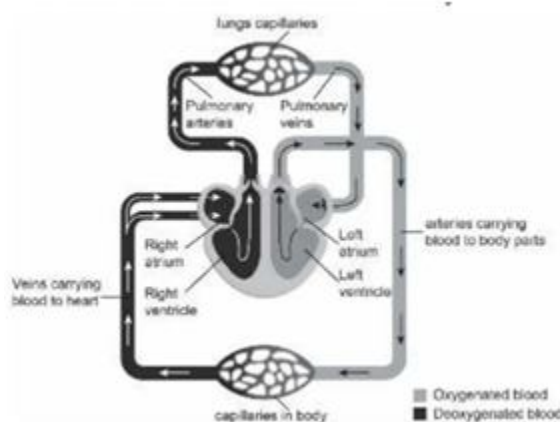

- a. Both A and R are true, and R is correct explanation of the assertion.
 - b. Both A and R are true, but R is not the correct explanation of the assertion.
 - c. A is true, but R is false.
 - d. A is false, but R is true.
1. Assertion (A) : The walls of atria are thicker than those of the ventricles.
Reason (R) : Ventricles have to pump blood into various organs at high pressure.
 2. Assertion (A) : Warm-blooded animals have their left and right side of the heart separated for more efficient supply of oxygen to the body.
Reason (R) : Warm-blooded animals need high energy to maintain their body temperatures.

3. Assertion (A) : Blood goes through the heart twice during each cycle in humans.
Reason (R) : This is known as double circulation and is necessary for maintaining body temperature.
4. Assertion (A) : Capillaries have walls that are just one cell thick.
Reason (R) : Exchange of material between the blood and surrounding cells takes place across the capillaries.
5. Assertion (A) : Amphibians can tolerate mixing of oxygenated and deoxygenated blood.
Reason (R) : Amphibians are animals with two chambered heart.
6. Assertion (A) : Transpiration helps in the absorption and upward movement of water and minerals.
Reason (R) : The evaporation of water molecules from cells of a leaf creates a suction pull.
7. Assertion (A) : Blood platelets are essential for the survival of an organism after an injury.
Reason (R) : Platelets help in the coagulation of blood at the site of a cut, preventing excessive blood loss.
8. Assertion (A) : The amount of water reabsorbed in the nephron depends on the amount of excess water in the body.
Reason (R) : Water reabsorption in nephron depends on the amount of dissolved waste to be excreted.
9. Assertion (A) : Lymph is an extracellular fluid that helps in draining back the absorbed fats from the intestines.
Reason (R) : It is formed when some amount of plasma, proteins and blood cells escape into the intercellular spaces in the tissues.
10. Assertion (A) : Dialysis is often called an artificial kidney.
Reason (R) : It is used to filter nitrogenous waste products from the blood of a patient with kidney failure.

SECTION E

MULTIPLE CHOICE QUESTIONS

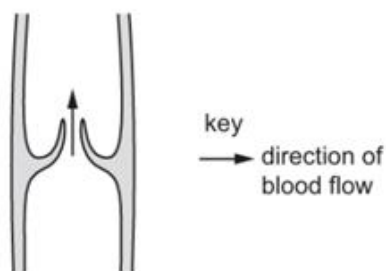

1. Blood transports oxygen and carbon dioxide to different parts of the human body. The exchange of gases between blood and inhaled air takes place in the capillaries of lungs. The diagram below shows how blood circulates in the human body.

Which of the following statements is supported by the diagram shown above?

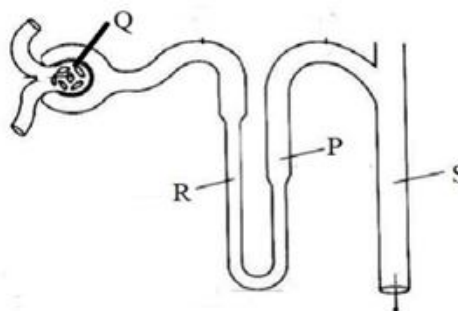

- a. All arteries carry oxygenated blood.
- b. Capillaries are permeable to gases.

- c. The wall between the left ventricle and the right ventricle is porous.
 - d. Blood can flow back and forth between the right atrium and the right ventricle.
2. The diagram shows part of a blood vessel.

Which evidence in the diagram shows that it is a vein and not an artery?

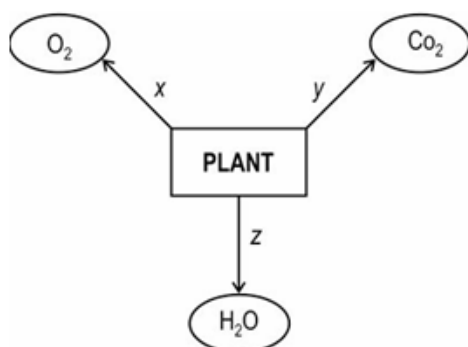

- a. There is a valve inside the blood vessel.
 - b. Blood is flowing in upward direction.
 - c. The blood vessel has a relatively small lumen.
 - d. The blood vessel has a relatively thick wall.
3. Which process is slower than normal in a person with very few platelets?
- a. antibody formation.
 - b. blood clotting.
 - c. oxygen transport.
 - d. phagocytosis.
4. Given below is a diagram of a nephron.

Which row of the following table correctly shows where filtration and selective reabsorption occur?

	Filtration	Selective reabsorption
a.	P	Q
b.	Q	S
c.	Q	R
d.	P	R

5. Look at the diagram below carefully.

- a. Reproduction.
- b. Transpiration.
- c. Photosynthesis.
- d. Translocation.

6. The diagram shows a model of a nephron and its associated blood vessels.

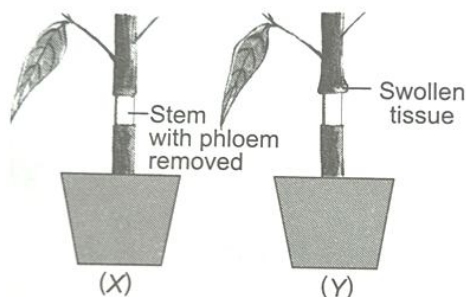

This model has been criticised for being a poor representation of a nephron. Which of the following statements explain(s) this?

- (i) The rubber tubing at B is not split up into numerous branches like the capillary network of the glomerulus.
- (ii) The rubber tubing at B should be continuous and not contain small pores.
- (iii) The stem of the thistle funnel (E) is not coiled to represent the convoluted tubules of the nephron.

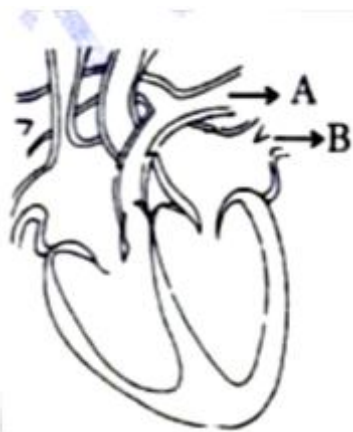

- a. (i) only.
- b. (i) and (iii) only
- c. (ii) and (iii) only
- d. (i), (ii) and (iii).

7. The given figure shows a setup at the start of an experiment 'X' and after a few days set up 'Y'. The change observed in setup Y is due to

- a. Upward movement of food getting blocked.
- b. Downward movement of food getting blocked.
- c. Upward movement of water getting blocked.
- d. Downward movement of water getting blocked.

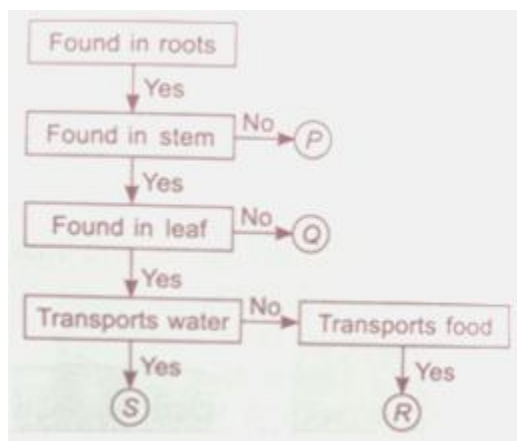

8. Consider the following statements in connection with the functions of the blood vessels marked A and B in the diagram of a human heart as shown below:

- (i) Blood vessel A - It carries carbon dioxide rich blood to the lungs.
- (ii) Blood vessel B - It carries oxygen rich blood from the lungs.
- (iii) Blood vessel B - Left atrium relaxes as it receives blood from this blood vessel
- (iv) Blood vessel A - Right atrium has thick muscular wall as it has to pump blood to this blood vessel

The correct statements are

- a. (i) and (ii) only.
 - b. (ii) and (iii) only.
 - c. (ii), (iii) and (iv).
 - d. (i), (ii) and (iii).
9. Study the given flow chart carefully and select the option that correctly identifies xylem and phloem.

XYLEM

PHLOEM

- | | | |
|----|---|---|
| a. | P | R |
| b. | R | S |
| c. | S | R |
| d. | Q | R |
10. Which part of the nephron allows the selective reabsorption of useful substances like glucose, amino acids, salts, and water?
- a. Tubular part of nephron.
 - b. Bowman's capsule.

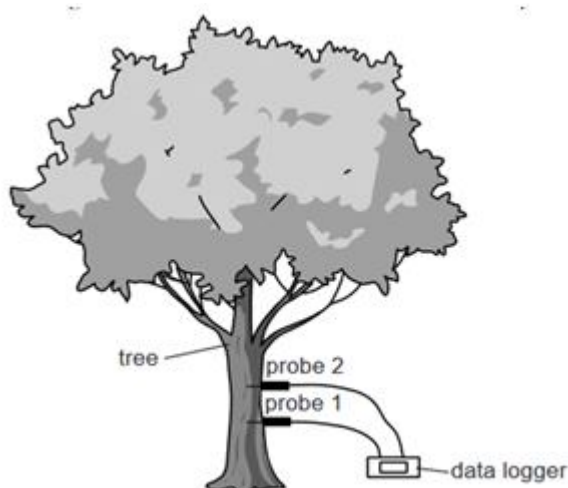

- c. Collecting duct.
- d. Glomerulus.

CASE STUDY BASED QUESTIONS:

1. Given below is a table representing the characteristics of two fluids involved in the transportation of substances in the human body.

FLUID A	FLUID B
colourless	coloured
contains less oxygen	contains more oxygen
contains less protein	contains more protein

- a. Identify fluid A and fluid B.
 - b. With the help of a flow chart, describe the movement of fluid A from the intercellular spaces to the main circulatory system.
 - c. What role does fluid A play in the digestion of food in humans?
2. Ecologists are scientists who study plants and animals in their natural environment. Some ecologists conducted an experiment in which they inserted probes into the water-conducting tissue in trees, as shown in the figure below. The time taken for water to move up from probe 1 to probe 2 was recorded in the data logger.

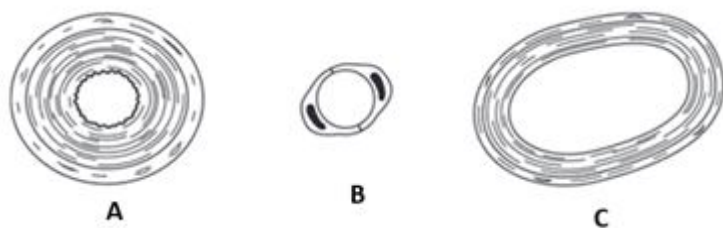

- a. Name the water-conducting tissue into which the two probes were inserted. How is this tissue different from the tissue which helps in translocation of food in plants.
- b. Name the driving forces that are largely instrumental in the transport of water:
 - i. at night.
 - ii. during daytime.
- c. Explain how does the water move into the root cells from the soil?
- d. What is transpiration? Give its significance.

COMPETENCY BASED QUESTIONS

1. Besides minimising the loss of blood, why is it essential to plug any leak in a blood vessel? Name the component of blood which helps in this process and state how this component performs this function.
2. Oxygen, mostly, is carried by a pigment in our blood whereas carbon dioxide is transported in dissolved form in our blood. Give two reasons that make the above statement correct.

3. The following diagram shows sections of three types of blood vessels:

- i. Out of the following locations, where is A likely to be present? What characteristics of A justifies its presence at this location?
 - Pulmonary Vein
 - Aorta
 - Vena Cava
 - ii. Which of the three vessels, shown in the diagram, has the ability to make blood flow in just one direction? Briefly explain how?
4. Two major forces that help in the transport of water in a plant. Force X is the driving force in the movement of water during the day, whereas the force Y helps the movement of water in a plant during the night or during the day when humidity is very high.
- a. Identify X and Y.
 - b. Describe how each of these helps in the movement of water in a plant.
5. During autumn, many trees turn yellow and shed their leaves. A student observes that even if the tree is well-watered, the leaves fall off. Explain the excretory strategy being utilized by the tree in this scenario.

**Class - X
Assignment
2026-27**

Unit II, Semester - 1

Subject : History

Topic : The making of the Global World

Q.1 M.C.Q

1. Who worked in American plantations during the 18th century:
 - a. Emigrants from Europe
 - b. Slaves captured from Africa
 - c. Unemployed population of America
2. Reason for decline of cotton textile export from India to Britain in the early 19th century:
 - a. imposition of tariff on cotton import into Britain.
 - b. quality of cotton textile was poor.
 - c. shortage of raw cotton in India.
 - d. cotton producers had found other buyers.
3. When the export of cotton textile to Britain declined, India did not lose much. Why?
 - a. because demand for Indian cotton textile in America increased.
 - b. because South-East Asian countries welcomed Indian cotton textiles.
 - c. because India's home market had adequate number of buyers for Indian textile.
 - d. because China opened a market for Indian textile.
4. Give the correct reason for decline of household income in Europe after the First World War:
 - a. People' stopped going to work, as they were scared of the war situation.
 - b. Death and injuries had reduced the number of able bodied work force.
 - c. Home governments had imposed heavier taxes.
 - d. People could not go to work because they got busy with reorganization of their households
5. During the First World War women in Europe stepped into jobs which earlier men were expected to do. What was the reason?
 - a. because men went to battle.
 - b. because men went to other countries in search of jobs.
 - c. because of liberalisation of women in society.
 - d. because menfolk decided to take charge of the household work.
6. Which of the following did not take part in the First World War?
 - a. Portugal
 - b. Germany
 - c. France
 - d. England
7. In which country did the Great Depression start?
 - a. Britain, 1929
 - b. France, 1930
 - c. USA, 1929
 - d. Germany, 1929
8. Identify one aim of the post-war international economic system:
 - a. To ensure economic stability of underdeveloped countries.
 - b. To promote good health for the people of the world.
 - c. Promotion of education worldwide.
 - d. To preserve economic stability and full employment in the industrial world.

9. Who adopted the concept of assembly line to manufacture automobiles?
 - a. T. Cuppola
 - b. Henry Ford
 - c. Samuel Morse
 - d. Christopher Columbus
10. Name the place and the year of United Nations Monetary and Financial Conference:
 - a. China, 1911
 - b. Tokyo, 1944
 - c. Vietnam, 1939
 - d. Bretton Woods in New Hampshire, USA, 1944

Section - B

Q.1 Very short answer type questions

1. What is cowrie? For what purpose were these used?
2. What is referred to as EL Dorado which attracted travellers?
3. Name two European Countries which colonised Americas in the Mid 16th Century
4. What is corn law? Why was it abolished?
5. Why is the year 1885 significant in the history of colonization?
6. What is Hosay carnival of Trinidad?
7. What is referred to as 'chutney' music?
8. Who was V.S. Naipaul?
9. Name the groups in which the world was divided before the first world war.
10. What is the significance of the Bretton woods conference?
11. What is Bretton wood twins?
12. What is rinder pest?
13. Explain floating exchange rates
14. What was the most powerful weapon of the Spanish conquerors?
15. What is meant by the term canal colonies?
16. What happened at the congress of Berlin?
17. Why were Europeans attracted to Africa?
18. What were the main destinations of Indian indentured migrants?
19. Name the world's first mass produced car
20. In which country did the Great Depression first occur?
21. What steps did Henry ford take in 1914 to retain labour?

Section - C

Q.1 Short answer type questions

1. How did silk routes link the world, explain with three suitable examples.
2. Explain how the global transfer of disease in the pre modern world helped in the colonization of Americas
3. Thousands fled Europe for America. Why?
4. Identify various types of Flows or movements within international economic exchangeduring 1815-1914
5. Which part of India had the first experience of new agricultural economy? How did this happen? What were the new canal colonies of Punjab?
6. What do you know about Sir Henry Morton Stanley?
7. Why were the Europeans attracted to Africa in the Late 19th century and what was the problem?
8. Examine the condition in the 19th century which compelled the Indians to become Indentured Labours and migrate to other countries in search of work.

9. Shikaripurisherooffs and Nattukottaichettiars were the backbone of trade. Explain.
10. Explain what is referred to as the G-77 countries. Why did they organise themselves as a Group?

Section - D

Q.1 Long answer type questions.

1. How did the silk route help in trade and cultural exchange?
2. How did rinderpest reach Africa? How did this create a havoc for the African people?
3. Why was 19th century indentured system referred to as the new system of slavery?
4. In the context of industrial production. What is meant by assembly line method?
5. What is meant by the Bretton woods agreement?

DELHI PUBLIC SCHOOL, FARIDABAD

Unit II, Semester - 1

Subject: Political Science

Ch. 2 : Federalism

SECTION - A

MCQs

1. Which system of government divides power between a central authority and its constituent units?
(a) Unitary (b) Federal
(c) Theocracy (d) Monarchy
2. Identify the appropriate reason for strengthening of centre-state relations in India.
(a) Era of coalitions between national and state parties at the centre.
(b) Rise of regional political parties
(c) Supreme Court judgements.
(d) All of these.
3. Name the independent institution established to conduct panchayat and municipal elections.
(a) State Election Commission (b) Local Election Commission
(c) Regional Election Commission (d) Election Commission
4. Choose the incorrectly matched pair from the following.
(a) Concurrent List - Education (b) Union List - Defence
(c) State List - Police (d) Residuary List - Trade
5. Which of the following groups of countries follow the Unitary system?
(a) France, Canada, India
(b) UAE, China, Sri Lanka
(c) USA, Australia, Belgium
(d) Belgium, UK, India
6. A council consisting of several ward members and a president.
(a) Panchayat Samiti (b) Zila Parishad
(c) Gram Panchayat (d) Gram Sabha
7. Which one of the following languages is included in the Eighth Schedule of the Indian Constitution?
(a) Bhojpuri (b) Magadhi
(c) Rajasthani (d) Tamil
8. The first and major test for democratic politics in our country was
(a) caste problem (b) language problem
(c) problems related to union territories (d) creation of linguistic states
9. In which one of the following organs of India are women taking advantage of reservation?
(a) Judiciary (b) Rajya Sabha
(c) Municipality (d) Legislative Council
10. Consider the following statements.
A. In a federation, the powers of the federal and provincial governments are clearly demarcated.
B. India is a federation because the powers of the Union and State Governments are specified in the Constitution and they have exclusive jurisdiction on their respective subjects.
C. Sri Lanka is a federation because the country is divided into provinces.
D. India is no longer a federation because some powers of the States have been devolved to the local government bodies.

Which of the statements given above are correct?

- | | |
|------------------|------------------|
| (a) A, B and C | (b) A, C and D |
| (c) A and B only | (d) B and C only |

SECTION - B

Very short answer type questions.

1. Why were the boundaries of several states of India changed in 1947?
2. State any two differences between the local government before and after the Constitutional amendment in 1992.
3. Differentiate between Municipal Corporation and Municipalities.
4. What are Union territories?
5. How can we make change in the power sharing arrangement in India?
6. What are the dual objectives of the federal system?

SECTION - C

Short answer type questions.

1. Why is decentralisation favoured in a democracy?
2. India is a federal country. Discuss.
3. Name any two subjects that are included in the Concurrent List. How are laws made on these subjects? Explain.
4. Why were the linguistic states created? What are their advantages?
5. Write the features of Unitary form of government.
6. Explain the threefold distribution of legislative powers in India.
7. "All the states in the Indian Union do not have identical powers" Elaborate.

SECTION - D

Long answer type questions.

1. What is federalism? Explain any five features.
2. Which were the policies adopted that ensured the success of Indian federalism? Explain.
3. Describe in brief the language policy of India.
4. Name the two routes through which federations have been formed. Differentiate between them.
5. How has the third tier of government in our country been made more effective and powerful by the Constitutional Amendment of 1992?
6. Explain the structure of the rural local government in India.

SECTION - E

Read the source given below and answer the questions that follows:

The Census of India held in 2011 recorded more than 1300 distinct languages which people mentioned as their mother tongues. These languages were grouped together under some major languages. For example, languages like Bhojpuri, Magadhi, Bundelkhandi, Chhattisgarhi, Rajasthani and many others were grouped together under 'Hindi'. Even after this grouping, the Census found 121 major languages. Of these, 22 languages are now included in the Eighth Schedule of the Indian Constitution and are therefore called 'Scheduled Languages'. Others are called 'non-Scheduled Languages'. The largest language, Hindi, is the mother tongue of only about 44 percent Indians.

1. What status has been given to Hindi by our Constitution?
2. Why did our Constitution not give the status of national language to any one language?
3. What are 'Scheduled Languages'? How many languages are now included in the Eighth Schedule of the Indian Constitution?

Assignment
2026-27

Unit II, Semester - 1

Subject : Geography

Ch. 3 Water Resources

Section - A

Q.1 Multiple Choice Questions

1. Name the ruler who constructed dams and lakes in ancient period.
 - a. Bindusar
 - b. Samudragupta
 - c. Vikramaditya
 - d. Chandragupta Maurya
2. Identify the appropriate reason for a shift by farmers to intensive and commercial crop.
 - a. It is more profitable
 - b. The demand for commercial crops has increased.
 - c. The provision of irrigation facilities.
 - d. Introduction of Green Revolution.
3. Identify the appropriate reason for inter-state water disputes.
 - a. Over sharing the water from the rivers.
 - b. Over diversion of the course of rivers.
 - c. Over sharing the costs and benefits of multi-purpose projects.
 - d. Over sharing the agricultural land for irrigation.
4. Identify the appropriate reason for variation in availability of water resources from state.
 - a. Due to the variations in the government policies from state to state.
 - b. Due to the variations in use of water resources by the people of the states.
 - c. Due to the variations in seasonal and annual precipitation.
 - d. Due to the variations in use of water resources for cultivation of crops.
5. Rana Pratap Sagar Dam is located in
 - a. Odisha
 - b. Uttarakhand
 - c. Rajasthan
 - d. Andhra Pradesh
6. What is the total volume of water which is in the form of Ocean?
 - a. 96.5 per cent
 - b. 97.5 per cent
 - c. 98.5 per cent
 - d. 95.5 per cent
7. For which purpose were dams traditionally built?
 - a. For generating electricity
 - b. For supplying water to Industries
 - c. For flood control
 - d. To impound river and rain water for irrigation
8. How much hydroelectric power of the total electricity produced is contributed in India
 - a. Approximately 22 per cent
 - b. Approximately 32 per cent
 - c. Approximately 28 per cent
 - d. Approximately 18 per cent

Case based Questions

1. Read the source given below and answer the following questions:

Irrigation has also changed the cropping pattern of many regions with farmers shifting to water intensive and commercial crops. This has great ecological consequences like salinisation of the soil. At the same time, it has transformed the social landscape fe., increasing the social gap between the richer landowners and the landless poor. As we can see, the dams did create conflicts between people wanting different uses and benefits from the same water resources. In Gujarat, the Sabarmati-basin farmers were agitated and almost caused a riot over the higher priority given to water supply in urban areas, particularly during droughts. Inter-state water disputes are also becoming common with regard to sharing the costs and benefits of the multi-purpose project.

- i. What was the cause of riot among the sabarmati basin farmers in Gujarat?
- ii. How did irrigation change the cropping pattern in India in Gujarat?
- iii. What are inter - state water disputes? Why are such issues raised?

2. Read the source given below and answer the following questions:

Many thought that given the disadvantages and rising resistance against the multi-purpose projects water harvesting system was a viable alternative, both socio-economically and environmentally. In ancient India, along with the sophisticated hydraulic structures, there existed an extraordinary tradition of water-harvesting system. People had in-depth knowledge of rainfall regimes and soil types and developed wide ranging techniques to harvest rainwater, groundwater, river water and flood water in keeping with the local ecological conditions and their water needs. In hill and mountainous regions, people built diversion channels like the 'guls' or 'kuls' of the Western Himalayas for agriculture.

Rooftop rainwater harvesting' was commonly practised to store drinking water, particularly in Rajasthan. In the flood plains of Bengal, people developed inundation channels to irrigate their fields. In arid and semi-arid regions, agricultural fields were converted into rain fed storage structures that allowed the water to stand and moisten the soil like the 'khadins' in Jaisalmer and 'Johads' in other parts of Rajasthan.

- i. How did people of Bengal channelise the overflow of water to agricultural lands?
- ii. What are khadins?
- iii. What was the basis of water harvesting in India?
- iv. Mention any two methods adopted by ancient India for water conservation.

Section - B

Q.1 Very short answer type questions-

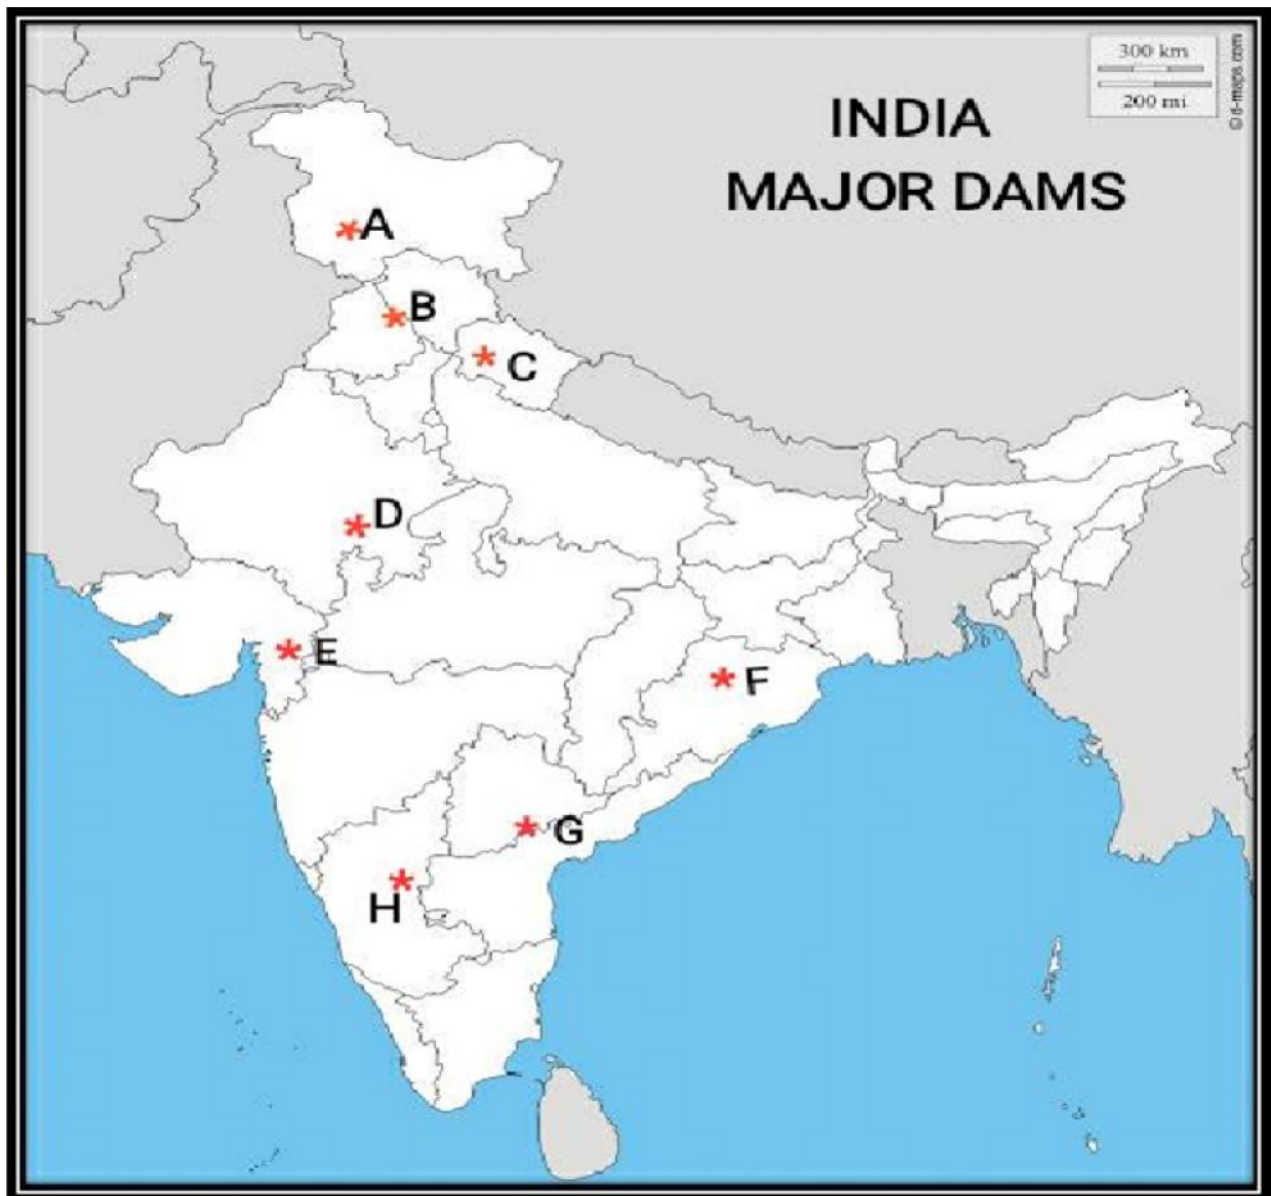

1. Why multi-purpose projects and large dams have been opposed ? State one reason.
2. Which are the two social movements that have been started to oppose multi-purpose projects ?
3. Which methods were used in arid and semi-arid regions for irrigation ?
4. What is remarkable about Gendathur a remote backward village in Mysore ?
5. What makes Tamil Nadu to stand out with regard to rainwater harvesting ?
6. Which system of tapping stream water is prevalent in Meghalaya ?
7. What is an ecological consequence of irrigation under multi-purpose projects ?
8. Why are multi-purpose river valley Projects called the 'temples of modern India'?
9. Where is the Hirakud Project and what is its advantage ?
10. Why is it necessary to conserve water resources in India? Give three reasons.

Q.2 Long Answer Type Questions

1. What is rooftop rainwater harvesting system ? Which is the first state in India to make rooftop harvesting compulsory?
2. How was the water conserved in ancient India? Give some examples in support of your answer.
3. What are inter-state water disputes? Why are such issues raised? Give examples of inter-state water disputes.
4. Describe how modern adaptation of traditional rain water harvesting methods are being carried out to conserve and store water?
5. Give five reasons responsible for water scarcity in India.
6. 'The need of the hour is to conserve and manage our water resources'. Justify the statement.
7. What is a multi-purpose river project ? Give four objectives of these projects ?
8. Why in recent years, multi-purpose projects & large dams have come under great scrutiny and opposition?
9. Explain any five main causes of water pollution.
10. What is rainwater harvesting ? Explain different traditional methods of rainwater harvesting in different regions of India.

11. Locate and label the following dams on the given Political map of India -

Ch. 4 : Agriculture

Section - A

Q.1 Multiple Choice Questions

1. Rabi crops are-
 - a. sown in winter and harvested in summers.
 - b. sown during rainy season and harvested in winter.
 - c. sown in summer and harvested in winter.
 - d. none of the above
2. Kharif crops are grown-
 - a. with the onset of monsoon and harvested in September-October.
 - b. with the onset of winter and harvested in summer.
 - c. with the onset of Autumn and harvested in summer.
 - d. none of the above
3. The two main wheat growing regions are-
 - a. The Ganga-Satluj plains and the Deccan trap
 - b. North-Eastern part and Eastern-Coastal plains
 - c. Deccan Plateau and Konkan Coast
 - d. None of the above
4. Cultivation of fruits and vegetables is called:
 - a. Floriculture
 - b. Sericulture
 - c. Horticulture
 - d. Agriculture
5. About 90% of Rubber demand is met by
 - a. Kerala
 - b. Karnataka
 - c. Tamil Nadu
 - d. Maharashtra
6. Which one of the following is a leguminous crop?
 - a. Pulses
 - b. Jawar
 - c. Millets
 - d. Sesamum
7. Which one of the following is announced by the government in support of a crop?
 - a. Maximum support price
 - b. Moderate support price
 - c. Minimum support price
 - d. Influential support price
8. Which of the following is not correct about plantation crop?
 - a. In this type of farming, a single crop is grown on a large area.
 - b. The plantation has an interface of agriculture and industry.
 - c. Plantation cover large tracts of land called estates.
 - d. Farmers clear a patch of land by felling the trees and burning them, to produce cereals and other food crops.
9. Which of the following are plantation crops?
 - a. Rice and maize
 - b. Wheat and pulses
 - c. Tea, coffee, banana and sugarcane
 - d. None of the above
10. The three crop seasons of India are-
 - a. Aus, Aman and Boro
 - b. Rabi, Kharif and Zaid
 - c. Baisakh, Paus and Chait
 - d. None of the above

Case based Questions

1. Read the source given below and answer the following questions:

Sustained uses of land without compatible techno-institutional changes have hindered the pace of agricultural development. In spite of development of sources of irrigation most of the farmers in large parts of the country still depend upon monsoon and natural fertility in order to carry on their agriculture. For a growing population, this poses a serious challenge. Agriculture which provides livelihood for more than 60 per cent of its population, needs some serious technical and institutional reforms. Thus, collectivisation, consolidation of holdings, cooperation and abolition of zamindari, etc. were given priority to bring about institutional reforms in the country after Independence. 'Land reform' was the main focus of our First Five Year Plan. The right of inheritance had already led to fragmentation of land holdings necessitating consolidation of holdings.

- i. What was the main focus of the 'First Five Year Plan'?
- ii. What was the serious challenge for the growing population?
- iii. Agriculture provided livelihood to how much population?

2. Read the source given below and answer the following questions:

Agriculture has been practised in India for thousands of years. Sustained uses of land without compatible techno-institutional changes have hindered the pace of agricultural development. In spite of development of sources of irrigation most of the farmers in large parts of the country still depend upon monsoon and natural fertility in order to carry on their agriculture. For a growing population, this poses a serious challenge. Agriculture which provides livelihood for more than 60 per cent of its population, needs some serious technical and institutional reforms. Thus, collectivisation, consolidation of holdings, cooperation and abolition of zamindari, etc. were given priority to bring about institutional reforms in the country after Independence.

'Land reform' was the main focus of our First Five Year Plan. The 'right of inheritance' had already led to fragmentation of land holdings necessitating consolidation of holdings.

- i. What is the most important occupation of the people of India?
- ii. Why farmers still depend upon monsoons?
- iii. What do you understand by the term 'collectivisation'?

Section - B

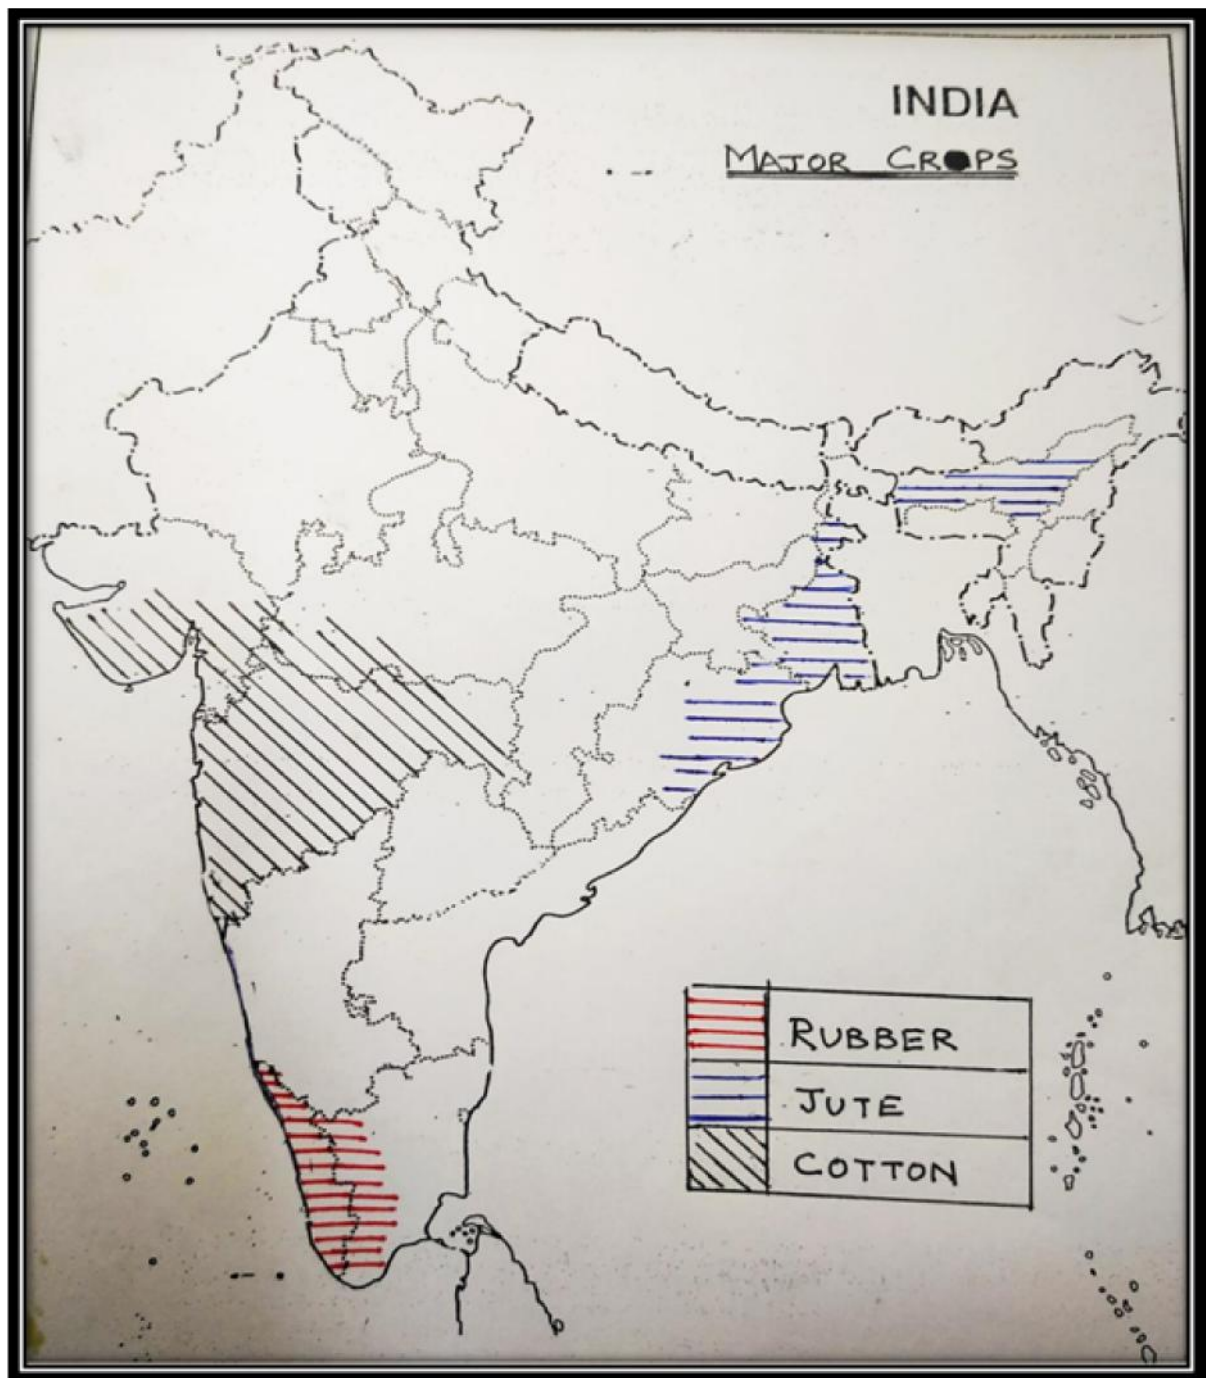

Q.1 Very short answer type questions-

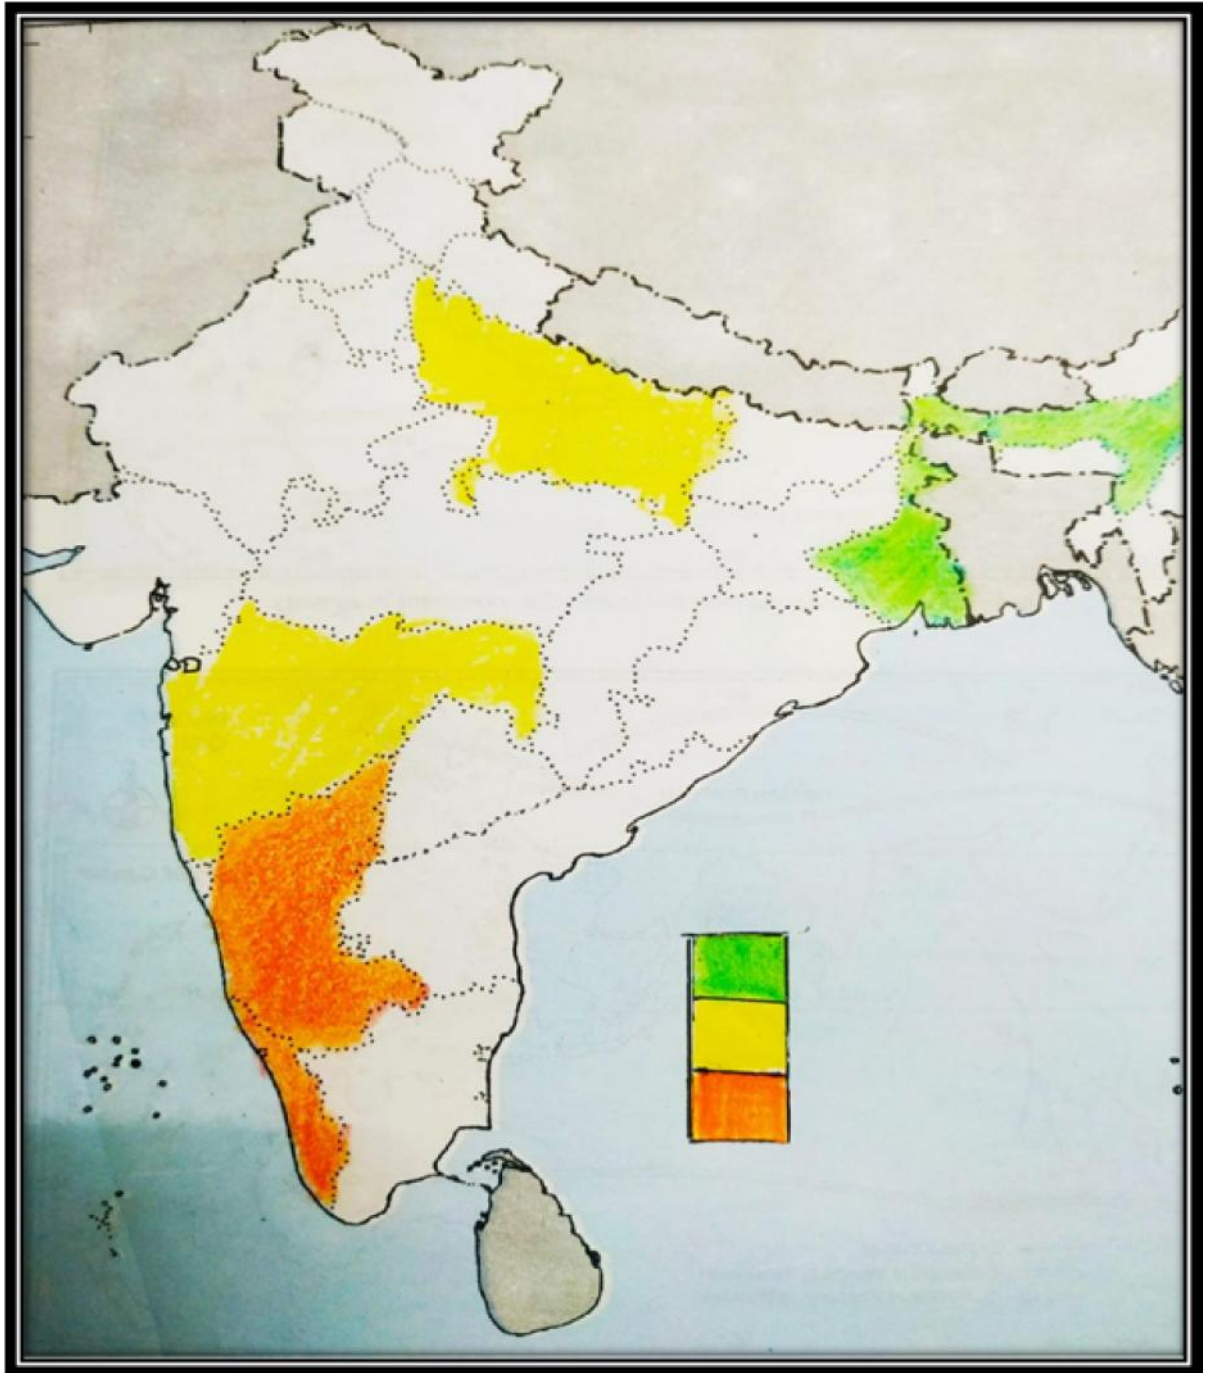

1. Why are Coarse some pulses known as leguminous crops? Why in rotation Why are they grown with other crops?
2. What does horticulture mean?
3. What is the importance of rubber for the Indian economy?
4. Why is Kerala the leading producer of rubber? Give three reasons.
5. Why is Jute losing its market?
6. Describe the three cropping seasons of India.
7. Which crop is known as a 'golden fibre'? Explain any two geographical conditions essential for the cultivation of this crop. Mention its four uses.
8. How can you say that 'India is the largest producer as well as the consumer of pulses in the world'?
9. Why is there an enormous pressure on agricultural land in Intensive subsistence Farming?
10. Why are millets called coarse grains?

Q.1 Long Answer answer type questions-

1. Which is the staple crop for majority of the people in India? Describe the geographical conditions required and the major areas of its production,
2. Name the crop which is used both as food and fodder. What are the geographical condition required for its growth? Name the major areas of its production.
3. Explain the important oilseeds grown in India?
4. What is implied by Operation Flood? How can it supplement the me weague income of the small and marginal farmers?
5. Explain the technological and institutional reforms introduced by the government to increase the agricultural production in India?
6. What are the problems faced by the farmers in India?
7. Write briefly by about the movement started Vinoba Bhave known as Blood-less. revolution.
8. What type of farming is called plantation farming? Which factors are needed to promote them in India ?
9. Highlight any three differences between primitive subsistence farming and intensive subsistence farming.
10. Name the two most important cereal crops in India. Describe the conditions required to grow these two crops.
11. Explain any five technological and institutional reforms in Indian agriculture.
12. What is slash and burn method of farming? Name the slash and burn farming in India and in different countries.
13. Differentiate between Primitive Subsistence and Intensive subsistence farming,
14. What are the three cropping in India? Explain seasons

DELHI PUBLIC SCHOOL, FARIDABAD

Assignment
2026-27

Unit II, Semester - 1

Subject: Economics

Chapter 2 : Sectors of the Indian Economy

Section - A

A. Multiple choice questions:

1. The _____ continues to be the largest employer in India.
 - a. Primary
 - b. Secondary
 - c. Tertiary
 - d. Quaternary
2. Sectors are classified on the basis of working conditions as-
 - a. Primary, Secondary, Tertiary
 - b. Public, Private
 - c. Organised, Unorganised
 - d. None of these
3. In the past 100 years, there has been a further shift from ----- to ----- in developed countries. This has become the most important in terms of total production.
 - a. secondary to tertiary sector
 - b. primary to tertiary sector
 - c. primary to secondary sector
 - d. none of the above
4. Which goods are not included in computing the value of national income?
 - a. intermediate goods
 - b. final goods
 - c. both a and b
 - d. none of these
5. Who among the following fall under the organized sector?
 - a. Raghu, a daily wage labourer working in a dam site under a contractor.
 - b. Nafeesa, a doctor getting all employment benefits.
 - c. Purushothaman, a cleaning staff in a private bank.
 - d. Ammini, a tailor stitching clothes at his home.
6. The NREGA was passed by the government of India in _____.
 - a. 2005
 - b. 2010
 - c. 2004
 - d. 2014
7. Which of the following is more likely to be found in the unorganised sector?
 - a. pension for retired workers
 - b. longer commute to work
 - c. frequent transfers
 - d. unpaid leaves
8. (i) Assertion (A) : In the public sector, the government owns most of the assets and provides all the services.
Reason (R) : The purpose of the public sector is not first to earn profits but to promote public welfare.
(ii) Assertion : In India, the mammoth task of measuring GDP is undertaken by a state government ministry.
Reason : With the help of various government departments of all the Indian states and union territories, the central ministry collects information relating to total volume of goods and services and their prices and then estimates the GDP.

Section - B

B. Very short answer type questions :

1. Classify the following occupations under primary, secondary and tertiary sector:
Washerman, dairy, fishing, sugar factory, ATM Booth.
2. Why is primary sector called agricultural and related sector?
3. State one feature of tertiary sector and why it is called service sector?
4. 'While calculating Gross Domestic product the value of only final goods should be included'. Give reason.
5. Why is the secondary sector called industrial sector?

Section - C

C Short answer type questions ;

1. Write any 3 differences between Organised and Unorganised sector.
2. Write a short note on NREGA 2005?
3. Why has the entire tertiary sector not grown in importance?
4. Why didn't shift out of primary sector happen in case of employment although there has been a change in the share of GDP of the three sectors?
5. Underemployment continues to be rampant in the rural area. Suggest three ways to create more employment in rural areas.

Section - D

D. Long answer type questions.

1. Why is tertiary sector growing so rapidly in India? Give reasons.
2. Differentiate between public and private sector
3. What is GDP? Who undertakes the task of measuring GDP in India ? How is this task done ? What is its importance?
4. Explain measures that can be adopted to remove disguised unemployment in agricultural sector.
5. Classify the economic sectors on the basis of nature of activities. Describe the importance of Primary sector in the Indian economy.
6. Write two groups of people working in unorganised sector who are in need of protection. How can the government protect them?

Section - E

Case Study Based Questions:

1 . Read the given passages and answer the following questions:

there are many activities that are undertaken by directly using natural resources. Take, for example, the cultivation of cotton. It takes place within a crop season. For the growth of the cotton plant, we depend mainly, but not entirely, on natural factors like rainfall, sunshine and climate. The product of this activity, cotton, is a natural product. Similarly, in the case of an activity like dairy, we are dependent on the biological process of the animals and availability of fodder etc. The product here, milk, also is a natural product. Similarly, minerals and ores are also natural products. When we produce a good by exploiting natural resources, it is an activity of the primary sector.

- a. Classify economic activities on the basis of nature of activity.
- b. Name any activity done in primary sector?
- c. How does the primary sector form the base of all other sectors? Explain briefly

2. 35 year old Sushila has spent many years as a worker in garment export industry of Delhi. She was employed as a 'permanent worker' entitled to health insurance, provident fund, overtime at a double rate, when Sushila's factory closed in the late 1990s. After searching for a job for six months, she finally got a job 30 km away from where she lives. Even after working in this factory for several years, she is a temporary worker and earns less than half of what she was earning earlier. Sushila leaves her house every morning, seven days a week at 7:30 a.m. and returns at 10 p.m. A day off from work means no wage. She has none of the benefits she used to get earlier. Factories closer to her home have widely fluctuating orders and therefore pay even less
- a. In which sector will you place the garment export factory ?
 - b. Why the condition of workers has worsened after 1990?
 - c. Why the factory owner is exploiting Sushila?

हिन्दी अतिरिक्त कार्य इकाई- 2 : 2026-2027

कक्षा-10

खण्ड-क

प्र01 गद्यांश पढ़कर पूछे गए प्रश्नों के उत्तर दीजिए।

‘घर’ जैसा छोटा-सा शब्द भावात्मक दृष्टि से बहुत विशाल होता है। इस आधार पर मकान, भवन, फ्लैट कमरा, कोठी बंगला आदि इसके समानार्थी बिल्कुल भी नहीं लगते हैं। क्योंकि इनका सामान्य संबंध दीवारों, छतों और बाहरी व आंतरिक साज-सज्जा तक सीमित होता है।

जबकि घर प्यार-भरोसे और रिश्तों की मिठास से बनता है। एक आदर्श घर वही है, जिसमें प्रेम व भरोसे की दीवारें, आपसी तालमेल की छतें, रिश्तों की मधुरता के खिले खिले रंग, स्नेह, सम्मान व संवेदनाओं की सज्जा हो। घर में भावात्मकता है, वह भावात्मकता, जो संबंधों को महकाकर परिवार को जोड़े रखती है। यह बात हमें अच्छी तरह याद रखनी चाहिए कि जब रिश्ते महकते हैं, तो घर महकता है, प्यार अठखेलियाँ करता है, तो घर अठखेलियाँ करता है, रिश्तों का उल्लास घर का उल्लास होता है, इसलिए रिश्ते हैं, तो घर हैं और रिश्तों के बीच बहता प्रेम घर की नींव है। यह नींव जितनी मजबूत होगी, घर उतना ही मजबूत होगा। न जाने क्यों, आज का मनुष्य संवेदनाओं से दूर होता जा रहा है, उसके मन की कोमलता, कठोरता में बदल रही। दिन-रात कार्य में व्यस्त रहने और धनोपार्जन की अति तीव्र लालसा से उसके अंदर मशीनियत बढ़ रही है, इसलिए उसके लिए घर के मायने बदल रहे हैं, उसकी अहमियत बदल रही है, इसी कारण आज परिवार में आपसी कलह, द्वंद्व आदि बढ़ रहे हैं। आज की पीढ़ी प्राइवेट (वैयक्तिकता) के नाम पर एकाकीपन में सुख खोज रही है। उसकी सेवा ‘मेरा कमरा, मेरी दुनिया’ तक सिमट गई है। एक छत के नीचे रहते हुए भी हम एकाकी होते जा रहे हैं। काश, सब घर की अहमियत समझें और अपना अहं हटाकर घर को घर बनाए रखने का प्रयास करें।

1.. भावात्मक दृष्टि से घर जैसे छोटे-से शब्द की ‘विशालता’ में निहित है/हैं

कथन पढ़कर सही विकल्प का चयन कीजिए-

- प्रेम, विश्वास, नातों का माधुर्य व संवेदनाएँ।
 - आकर्षक बनावट, सुंदर लोग, वैभव व संपन्नता।
 - सुंदर रंग संयोजन, आंतरिक सजावट एवं हरियाली।
 - स्नेह, सम्मान, सरसता, संवेदनाएँ, संपन्नता व साज-सज्जा। कूट
- क. केवल (i) सही है
ख. (i) और (ii) सही हैं
ग. (ii) और (iii) सही हैं
घ. (iii) और (iv) सही हैं

2. सामान्य रूप में मकान, भवन, फ्लैट, कमरा, कोठी आदि शब्दों का संबंध किससे होता है ?

- क. हृदय की भावनाओं से
ख. वैभव और समृद्धि से
ग. स्थानीय सुविधाओं से
घ. बनावट व सजावट से

3. आज की पीढ़ी को सुख किसमें दिखाई दे रहा है ?
 - क. निजी जीवन व एकांतिकता में
 - ख. पारिवारिक भावात्मक संबंधों में
 - ग. बिना मेहनत सब कुछ मिल जाने में
 - घ. धन कमाने के लिए जी तोड़ मेहनत करने में
4. गद्यांश में प्रेम को घर का क्या बताया गया है ?
 - क. आभूषण
 - ख. आधार
 - ग. भरोसा
 - घ. उल्लास
5. कथन (A) आदमी के अंदर संवेदनाओं की जगह मशीनियत बढ़ती जा रही है।
कारण (R) व्यस्तता और अर्थोपार्जन की अति महत्वाकांक्षा ने उसे यहाँ तक पहुँचा दिया है।
 - क. कथन (A) गलत है, किंतु कारण (R) सही है।
 - ख. कथन (A) और कारण (R) दोनों गलत हैं।
 - ग. कथन (A) सही है और कारण (R) कथन (A) की सही व्याख्या करता है।
 - घ. कथन (A) सही है, किंतु कारण (R) कथन (A) की सही व्याख्या नहीं करता है।

प्र 02

सवेरे हम अपनी मंजिल काठमांडू की ओर बढ़े। पहाड़ी खेतों में भक्के और अरहर की फसलें लहरा रही थीं। छोटे-छोटे गाँव हम काठमांडू पहुँच गए। आज काठमांडू पर लिखते हुए अंगुलियाँ काँप रही हैं। वैसे ही जैसे पच्चीस अप्रैल को काठमांडू की धरती काँप उठी थी। न्यूज चैनल जब धरहरा स्तंभ को भरभराकर गिरते दिखा रहे थे। मेरा मन बैठा जा रहा था। क्या हुआ होगा धरहरा के इर्दगिर्द फेरी लगाकर सामान बेचने वालों का और उस बाँसुरी वादक का जिसके सरों ने मन मोह लिया था ? और वे पर्यटक जो धरहरा के सौंदर्य में बिंधे उसका सौंदर्य निहारते। सब कुछ जानते हुए भी मन यही कह रहा है कि सब ठीक हो।

रात को हम बाजघर गए। बाजघर इलेक्ट्रॉनिक सामानों से अटा पड़ा था और दुकानों की मालकिनें मुस्तैदी से सामान बेच रही थीं। हमारे हिमालयी क्षेत्रों की तरह यहाँ भी अर्थव्यवस्था का आधार औरतें हैं। क्योंकि पहाड़ों पर पर्याप्त जमीन नहीं होती और रोज़गार के साधन भी बहुत नहीं होते, सो घर के पुरुष नीचे मैदानी इलाकों में कमाने जाते हैं और घर परिवार की सारी ज़िम्मेदारी महिलाएँ उठाती हैं। यहाँ गाँव की महिलाएँ खेती औ शहर की महिलाएँ व्यवसाय संभालती हैं। मैंने देखा वे बड़ी कुशलता से व्यावसायिक दाव पेंच अपना रही थी। हम पोखरा होते हुए लौट रहे थे रास्ते भर हिमाच्छादित चोटियाँ आँख मिचौली खेलती रही। राह में अनेक छोटे बड़े नगर गाँव और कस्बे आते रहे नेपाली औरतें घरों में काम करती नजर आ रही थी मक्का कट कट कर घर आ चुकी थी उसके गुससे घर के बाहर कोटियों के सहारे लटके नजर आ रहे थे अब हम काली नदी के साथ-साथ चल रहे थे।

1. काठमांडू पर लिखने के लिए लेखक की अंगुलियाँ क्यों काँप रही थी ?
 - क. नेपाल में आया भूकंप याद आ गया
 - ख. आतंकवादी हमले की आशंका थी
 - ग. लेखक के हाथ में चोट थी
 - घ. धरहरा स्तंभ अब कभी नहीं देख पाएगा
2. लेखक दुःखी और हताश क्यों था ?
 - क. धरहरा स्तंभ भूकंप में तहस-नहस हो गया था
 - ख. न्यूज चैनल जब धरहरा स्तंभ दिखा रहे थे

- ग. लग रहा था जीवन क्षणभंगुर है
घ. प्राकृतिक आपदा कहीं भी आ सकती है
3. कथन पढ़कर सही विकल्प का चयन कीजिए।
i. पुरुष रोजगार के लिए बाहर जाकर काम करते हैं।
ii. महिलाएँ ज्यादा जिम्मेदार होती हैं।
iii. महिलाएँ पुरुषों पर कम विश्वास करती हैं।
iv. महिलाएँ मोल-भाव अच्छी तरह करती हैं।
क. कथन (i) सही है
ख. कथन (i) व (ii) सही है
ग. कथन (ii) व (iii) सही है
घ. कथन (iii) व (iv) सही है
4. फेरीवाले और बाँसुरी वादक के लिए लेखक क्यों दुःखी है ?
5. नेपाल में अर्थव्यवस्था का आधार औरतें हैं।

खण्ड-ख - व्याकरण

प्र 03 निम्नलिखित प्रश्नों के उत्तर दें -

- सरल वाक्य किसे कहते हैं ?
- मिश्र वाक्य को स्पष्ट कीजिए।
- उपवाक्य क्या होते हैं ? इसके प्रकारों को स्पष्ट कीजिए।
- क्रियाविशेषण उपवाक्य के कितने भेद हैं ? उनके नाम लिखिए।
- निम्नलिखित वाक्यों को मिश्र वाक्यों में बदलिए।
क. कई सालों से बड़े-बड़े बिल्डर समंदर को पीछे धकेल कर उसको ज़मीन हथिया रहे थे।
ख. तुम बस रुकने के स्थान पर चले जाओ।
ग. अविनाश के झंडा फहराते समय उन्हें गिरफ्तार कर लिया गया।
घ. अध्यापक अपने शिष्यों को अच्छा बनाना चाहता है।
ङ. पकड़े गए आदमियों की संख्या का पता नहीं चला।
च. लड़कों का एक झुंड पतंग के पीछे-पीछे दौड़ा चला आ रहा था।
छ. ग्वालियर में हमारा एक मकान था, उस मकान के दालान में दो रोशनदान थे।
ज. प्रैक्टिकल आइडियलिस्टों के जीवन से आदर्श धीरे-धीरे पीछे हटने लगते हैं।
- निम्नलिखित वाक्यों को संयुक्त वाक्यों में बदलिए।
क. कई बार मुझे डाँटने का अवसर मिलने पर भी बड़े भाई साहब चुप रहे।
ख. कहा जाना चाहिए कि यह सभा एक ओपन चौलेंज थी।
ग. मोनुमेंट के नीचे झंडा फहराने के बाद स्वतंत्रता की प्रतिज्ञा पढ़ी जाएगी।
घ. शेर को देखकर सब बच्चे डरकर भाग गए।
ङ. भाई साहब ने उछलकर पतंग की डोर पकड़ ली।
च. वह रोज व्यायाम करता है, इसलिए स्वस्थ रहता है। (सरल वाक्य में)
छ. परिश्रमी व्यक्ति कभी खाली नहीं बैठता। (मिश्र वाक्य में)
ज. कर्म करने वाले को फल की इच्छा नहीं करनी चाहिए। (मिश्र वाक्य में)

प्र 04 रचना के आधार पर निम्नलिखित वाक्यों का भेद बताइए।

- क. आप अंदर आइए और बैठ जाइए।
- ख. वह दो दिन हमारे घर रहा और सबका प्रिय हो गया।
- ग. यद्यपि वह बहुत मेहनती है फिर भी सफल नहीं हो सका।
- घ. अध्यापिका ने पाठ पढ़ाने के बाद प्रश्न पूछे।
- ङ. जैसा उसका स्वभाव है, वैसा ही आचरण है।
- च. शिक्षक कक्षा से निकले। छात्रों ने खेलना शुरू कर दिया।

पदबंध

जब दो अथवा दो से अधिक पद मिलकर एक ही शाब्दिक इकाई का कार्य करते हैं तो इन पदों के समूह को पद बंध कहते हैं।

पदबंध की पहचान

पदबंधों की पहचान के लिए हमें पद समूह के अंतिम पद पर ध्यान देना चाहिए उदाहरणार्थ

1. सबसे तेज दौड़ने वाला खिलाड़ी जीत गया। (संज्ञा पदबंध)
2. रात भर जागने वाले तुम (सर्वनाम पदबंध) कैसे सो गए ?
3. काले घनघोर गरजते बादल भाई उत्पन्न कर रहे थे। (विशेषण पदबंध)

पदबंध के भेद

पद-समूह का अंतिम पद मुख्य होता है, जिससे पदबंध की पहचान की जाती है। इस आधार पर पदबंध के पाँच प्रकार होते हैं

1. संज्ञा पदबंध
 2. विशेषण पदबंध
 3. सर्वनाम पदबंध
 4. अव्यय क्रियाविशेषण पदबंध
 5. क्रिया पदबंध
1. संज्ञा पदबंध-संज्ञा पद के स्थान पर प्रयुक्त पद-समूह (संज्ञा पदबंध) कहलाता है अर्थात् पदबंध का अंतिम अथवा शीर्ष पद यदि संज्ञा हो और अन्य पद उस पर आबित हों, तो ऐसा पद-समूह 'संज्ञा पदबंध' कहलाता है, जैसे-
 1. सामने वाले मकान में रहने वाला व्यक्ति आज घर चला गया।
 2. देश के हित की बात सोचने वाले नागरिक ही सच्चे देशभक्त हैं।
 3. रात में पहरा देने वाला पहरेदार बीमार हो गया।
 4. कमरे में रोता हुआ बालक सो गया।
 5. जंगल में रहने वाले पशु यहीं पानी पीने आते हैं।
 2. सर्वनाम पदबंध-पदों का वह समूह, जो वाक्य में सर्वनाम का कार्य करे, उसे 'सर्वनाम पदबंध' कहते हैं। ऐसे पदबंध का शीर्ष पद सर्वनाम होता है और अन्य पद उस पर आश्रित होते हैं, जैसे-
 1. कक्षा में शोर मचाने वाले तुम शांत क्यों हो ?
 2. शेर की तरह गरजने वाले आप चुप क्यों हैं ?
 3. गाँव से आए मजदूरों में से कुछ अंग्रेजी जानते हैं।
 4. जो बच्चा कल आया था, वह गाँव में पढ़ता है।
 5. आपके मित्रों में से कोई नहीं आया।

3. विशेषण पदबंध ऐसा पद-समूह, जो विशेषण की भाँति कार्य करे अथवा किसी संज्ञा अथवा सर्वनाम की विशेषता बताने के लिए प्रयुक्त हो, वह 'विशेषण पदबंध' कहलाता है। दूसरे शब्दों में, किसी पद समूह का शीर्ष पद विशेषण हो और शेष पद उस पर आश्रित हों, तो ऐसा पद-समूह विशेषण पदबंध कहलाता है, जैसे-
 1. मैदान में घायल खिलाड़ी गिर पड़ा।
 2. कारखाने में काम करने वाला मजदूर अपने घर चला गया।
 3. बरगद की घनी और ठंडी छाया से पथिक को बहुत शांति मिली।
 4. नदी में कूदने वाला बालक बहुत बहादुर था।
 5. दो किलो ताजे और मीठे कश्मीरी सेब ले आओ।
4. क्रिया पदबंध-क्रिया पदबंध में एक से अधिक पद क्रिया का कार्य करते हैं। यह अनेक क्रिया पदों से मिलकर बना होता है। इस पदबंध में पहले मुख्य क्रिया आती है तथा उसके पश्चात अन्य क्रियाएँ मिलकर एक इकाई के रूप में कार्य करती हैं। क्रिया पदबंध के कुछ उदाहरण निम्नलिखित हैं-
 1. जहाज पानी में डूबता चला गया।
 2. बालक रोते-रोते सो गया।
 3. नदी की तेज धारा में पत्थर लुढ़कते चले जा रहे थे।
 4. छत से पतंग दिखाई दे रही थी।
 5. राहुल मैदान में खेल रहा है।
5. क्रियाविशेषण (अव्यय) पदबंध-वाक्य में क्रियाविशेषण का कार्य करने वाले पदबंध 'क्रियाविशेषण पदबंध' कहलाते हैं। ऐसे पदबंध वास्पव में अव्यय का कार्य करते हैं। अतः इन्हें 'अव्यय पदबंध' भी कहते हैं। सामान्यतः ऐसे पदबंधों का अंतिम पद अव्यय ही होता है। क्रियाविशेषण पदबंधों के कुछ उदाहरण निम्नलिखित हैं-
 1. वह सुबह से शाम तक काम करता रहा है।
 2. मैं कल रात दस बजे तक पहुँच जाऊँगा।
 3. उसका घर दिल्ली गेट के निकट है।
 4. वह गुस्से से दाँत पीसता हुआ दौड़घ।
 5. कछुआ बहुत धीरे-धीरे चल रहा था।
6. पदबंध पर आधारित प्रश्न
 1. पदबंध किसे कहते हैं ?
 2. पदबंध के कितने भेद होते हैं ?
 3. संज्ञा पदबंध की परिभाषा उदाहरण सहित लिखिए।
 4. विशेषण पदबंध क्या होता है ?
 5. क्रिया पदबंध किसे कहते हैं ?
 6. क्रिया-विशेषण पदबंध का उदाहरण दीजिए।
 7. निम्न वाक्य में पदबंध पहचानिए
“लंबे बालों वाली लड़की गाना गा रही है।”
 8. वाक्य में प्रयुक्त पदबंध का प्रकार बताइए
“बहुत तेज दौड़ने वाला खिलाड़ी जीत गया।”

7. रिक्त स्थान भरिए
 “जो शब्दों का समूह एक पद का कार्य करता है, उसे ————— कहते हैं।”
8. निम्न पदबंधों के भेद लिखिए
1. नीले रंग की शर्ट
 2. धीरे-धीरे चलना
 3. खाना खा रहा है

मुहावरे

- प्र05**
1. दीवार खड़ी करना-बैटवारा कर लेना।
 घर में लड़ाई होने के कारण दोनों परिवारों में दीवार खड़ी हो गई।
 2. बेघर करना-आश्रय छीन लेना।
 चेन्नई में आई बाढ़ ने न जाने कितने लोगों को बेघर कर दिया।
 3. डेरा डालना-स्थायी रूप से रहना। जब से यहाँ दंगे हुए हैं, तब से सेना ने यहाँ डेरा डाल दिया है।
 4. जान पर खेलना - प्राणों की परवाह न करना
 5. दिल टूटना - अत्यधिक दुखी होना
 6. आग बबूला होना - बहुत क्रोधित होना
 7. आँखों का तारा - अत्यंत प्रिय व्यक्ति
 8. प्राण सूखना - बहुत डर जाना
 9. मुँह लटकाना - उदास होना
 10. हाथ मलना - पछताना
 11. कलेजा फटना - असहनीय दुख होना
 12. आँसू बहाना - रोना या दुख प्रकट करना
 13. मन ही मन - चुपचाप अपने भीतर

खण्ड-ग -

मीरा

- प्र06** निम्नलिखित पद को पढ़कर दिए गए प्रश्नों के उत्तर दीजिए ?
- हरि आप हरो जन री भीर।
 द्रोपदी री लाज राखी, आप बढ़ायो चीर।
 भगत कारण रूप नरहरि, धरयो आप सरीर।
 बूढ़तो गजराज राख्यो, काटी कुञ्जर पीर।
 दासी मीराँ लाल गिरधर, हरो म्हारी भीर।।
1. मीरा की रचनाओं में उनके आराध्य किस रूप में संकल्पित किये गए हैं ?
- क. निर्गुण निराकार ब्रह्म
 - ख. सगुन साकार गोपी बल्लभ श्री कृष्ण
 - ग. निर्मोही परदेशी जोगी
 - घ. सगुन साकार गोपी

2. मीरा बाई का जन्म कब और कहाँ हुआ ?
 - क. जोधपुर के चोकड़ी में 1820 में
 - ख. जयपुर में 1845 में
 - ग. सीतापुर में 1830 में
 - घ. जोधपुर
3. 'गिरधर' का क्या अर्थ है ?
 - क. पहाड़
 - ख. गोवर्धन पर्वत धारण करने वाले श्री कृष्ण
 - ग. नदी
 - घ. सगुन साकार गोपी
4. मीरा कौन सी भाषाओं की कवयित्री मानी जाती है।
 - क. गुजराती और राजस्थानी
 - ख. हिंदी और गुजराती
 - ग. हिंदी और मराठी
 - घ. सभी
5. मीरा के पद किसको सम्बोधित किये गए हैं ?
 - क. मेवाड़ के महाराणा सांगा
 - ख. अपने आराध्य कृष्ण को
 - ग. अपने पति को
 - घ. अपने पिता को

लघु उत्तरीय प्रश्न

1. मीराबाई ने श्रीकृष्ण से अपनी रक्षा करने की प्रार्थना किन उदाहरणों के माध्यम से की है ?
2. 'हरो क्याँ री भीर' पंक्ति में 'भीर' शब्द का क्या अर्थ है और मीरा इसे हरने की विनती क्यों कर रही हैं ?
3. मीराबाई श्रीकृष्ण की चाकरी (सेवा) क्यों करना चाहती हैं ? इसके पीछे उनका क्या स्वार्थ है ?
4. 'कुंजर' और 'काती' शब्दों का पदों के संदर्भ में अर्थ स्पष्ट कीजिए।

व्याख्यात्मक प्रश्न

1. 'भाव भगती जागीरी पास्युँ, तीनूँ बातों सरसी।' इस पंक्ति का भाव स्पष्ट कीजिए। मीरा किन तीन बातों के सिद्ध होने की बात कर रही हैं ?
2. मीरा के पदों में श्रीकृष्ण के रूप-सौंदर्य का जो वर्णन किया गया है, उसे अपने शब्दों में लिखिए।
3. मीराबाई ने श्रीकृष्ण को 'अधम उधारन' (नीच का उद्धार करने वाला) क्यों कहा है ? द्रौपदी और प्रह्लाद के प्रसंगों का उल्लेख करते हुए उत्तर दीजिए।
4. यमुना किनारे और आधी रात में श्री कृष्ण के दर्शन पाने की लालसा मीरा की किस मानसिक दशा को दर्शाती है ?
5. मीराबाई की भक्ति में 'दैन्य' और 'माधुर्य' भाव का अनूठा संगम है। पठित पदों के आधार पर इस कथन की पुष्टि कीजिए।
6. मीरा के पदों की भाषाई विशेषताओं पर प्रकाश डालिए। उनकी भाषा में किन-किन क्षेत्रीय भाषाओं का प्रभाव दिखाई देता है ?

7. 'ऊँचा-ऊँचा महल बणावाँ, बिच-बिच राखूँ बारी।' इस पंक्ति के माध्यम से मीरा की भक्ति की पराकाष्ठा को समझाइए।

काव्य-सौंदर्य एवं व्याकरण

अनुप्रास अलंकार पदों में से कोई दो उदाहरण ढूँढकर लिखिए जहाँ अनुप्रास अलंकार का प्रयोग हुआ हो। तत्सम और तद्भव 'हिवड़ो', 'चीर', 'कुंजर' और 'पीतांबर' शब्दों का मानक हिंदी रूप लिखिए।

प्र 07 अब कहाँ दूसरों के दुख में दुखी होने वाले

क. निम्नलिखित गद्यांश को पढ़कर दिए गए प्रश्नों के उत्तर दीजिए ?

ग्वालियर में हमारा एक मकान था, उस मकान के दालान में दो रोशनदान थे। उसमें कबूतर के एक जोड़े ने घोंसला बना लिया था। एक बार बिल्ली ने उचककर दो में से एक अंडा तोड़ दिया। मेरी माँ ने देखा तो उसे दुख हुआ। उसने स्टूल पर चढ़कर दूसरे अंडे को बचाने की कोशिश की। लेकिन इस कोशिश में दूसरा अंडा उसी के हाथ से गिरकर टूट गया। कबूतर परेशानी में इधर-उधर फड़फड़ा रहे थे। उनकी आँखों में दुख देखकर मेरी माँ की आँखों में आँसू आ गए। इस गुनाह को खुदा से मुआफ़ कराने के लिए उसने पूरे दिन रोजा रखा। दिन-भर कुछ खाया पिया नहीं। सिर्फ़ रोती रही और बार-बार नमाज पढ़-पढ़कर खुदा से इस गलती को मुआफ़ करने की दुआ माँगती।

1. लेखक की माँ किस बात से दुखी थीं ?
 - क. घर में कबूतरों ने घोंसला बना लिया था।
 - ख. कबूतर के दोनों अंडे टूट गए थे।
 - ग. कबूतर अंडों को छोड़कर चले गए थे।
 - घ. बिल्ली अंडों को खा गई थी।
2. लेखक की माँ खुदा से किस गुनाह को माफ़ कराना चाहती थीं ?
 - क. पहला अंडा तोड़ने का गुनाह
 - ख. बिल्ली को मारने का गुनाह
 - ग. दूसरा अंडा टूट जाने का गुनाह
 - घ. कबूतर का घोंसला तोड़ने का गुनाह
3. प्रस्तुत गद्यांश से पता चलता है कि लेखक की माँ अत्यधिक
 - क. संवेदनशील थीं
 - ख. स्वार्थी
 - ग. कमज़ोर थीं
 - घ. डरपोक थीं
4. माँ की आँखों में आँसू आ गए थे, क्योंकि—
 - क. कबूतर का अंडा बिल्ली ने तोड़ दिया था।
 - ख. कबूतर का अंडा लेखक से टूट गया था।
 - ग. लेखक की पत्नी ने कबूतर का अंडा तोड़ दिया था।
 - घ. कबूतर की आँखों में दुख देखकर व्यथित हो गई थीं।

5. निम्नलिखित कथन (A) तथा कारण (R) को ध्यानपूर्वक पढ़िए। उसके बाद दिए गए विकल्पों में से कोई एक सही विकल्प चुनकर लिखिए।
- कथन (A) – कबूतर परेशानी में इधर-उधर फड़फड़ा रहे थे।
- कारण (R) – कबूतरों का ठिकाना नष्ट हो गया था।
- क. कथन (A) तथा कारण (R) दोनों गलत हैं।
- ख. कथन (A) गलत है लेकिन कारण (R) सही है।
- ग. कथन (A) सही है लेकिन कारण (R) गलत है।
- घ. कथन (A) और कारण (R) दोनों सही हैं तथा कारण (R) कथन (A) की सही व्याख्या करता है।

ख. निम्नलिखित प्रश्नों के उत्तर दो।

1. शेख अयाज़ और सुलेमान के उदाहरणों से लेखक क्या समझाना चाहते हैं ?
2. धरती किसी एक की क्यों नहीं है ? इसमें किनकी हिस्सेदारी है ?
3. बढ़ती हुई आबादी का पर्यावरण पर क्या प्रभाव पड़ा है ?
4. लेखक की माँ बचपन में उसे क्या समझाती थी ?
5. सुलेमान का दूसरा नाम क्या था ? उसने चींटियों से क्या कहा ?
6. लेखक की पत्नी ने किस समस्या का सामना किया और उसे कैसे किया ?
7. लेखक के अनुसार ग्वालियर से बम्बई तक की दूरी में क्या-क्या परिवर्तन आ चुके हैं ?

प्र 08 निम्नलिखित गद्यांश को पढ़कर पूछे गए प्रश्नों के सर्वाधिक उचित उत्तर विकल्प से चुनकर लिखिए -

क्रोध में उसने तलवार निकाली और कुछ विचार करता रहा। क्रोध लगातार अग्नि की तरह बढ़ रहा था। लोग सहम उठे। एक सन्नाटा-सा खिंच गया। जब कोई राह न सुझी तो क्रोध का शमन करने के लिए उसने शक्ति भर उसे धरती में घोंप दिया और ताकत से उसे खींचने लगा। वह पसीने से नहा उठा। सब घबराए हुए थे। वह तलवार को अपनी तरफ खींचते खींचते दूर तक पहुँच गया। वह हाँफ रहा था। अचानक जहाँ तक लकीर खिंच गई थी, वहाँ एक दरार होने लगी। मानो धरती दो टुकड़ों में बँटने बागी हो। एक गड़गड़ाहट-सी गूँजने लगी और लकीर की सीध में धरती फटती ही जा रही थी। द्वीप के अंतिम सिरे तक तताँरा धरती को मानो क्रोध में काटता जा रहा था। सभी भयाकुल हो उठे। लोगों ने ऐसे दृश्य की कल्पना न की थी। वे सिहर उठे। उधर वामीरो फटती हुई धरती के किनारे चीखती तताँरा तताँरा। उसकी करुण चीख मानो गड़गड़ाहट में डूब गई। हुई दौड़ रही थी – तताँरा तताँरा दुर्भाग्यवश दूसरी तरफ था। द्वीप के अंतिम सिरे तक धरती को चाकता वह जैसे ही अंतिम छोर पर पहुँचा, द्वीप दो टुकड़ों में विभक्त हो चुका था। एक तरफ तताँरा था दूसरी तरफ वामीरो।

1. लोगों का सहम जाना किस बात का परिचायक है ?
- क. भय
- ख. करुणा
- ग. क्रोध
- घ. प्रसन्नता

2. ततौरा को कोई राह न सूझने के कारणों पर विचार कीजिए और उचित विकल्प का चयन कीजिए।
 - अ. आत्मसमर्पण का भाव
 - ब. वामीरो से अत्यधिक प्रेम
 - स. तलवार की दैवीय शक्ति
 - द. गाँव वालों के प्रति रोष
 - क. (अ) और (स)
 - ख. (अ), (स) और (द)
 - ग. केवल (स)
 - घ. (अ), (ब) और (द)
3. निम्नलिखित कथन (A) और कारण (R) को पढ़कर उचित विकल्प का चयन कीजिए-कथन (A): लोगों ने ऐसे दृश्य की कल्पना न की थी।
कारण (A): ग्रामवासियों ने यह कदापि न सोचा था कि ततौरा की प्रतिक्रिया इतनी विनाशकारी सिद्ध हो सकती है।
 - क. कथन (A) तथा कारण (R) दोनों गलत हैं।
 - ख. कथन (A) गलत है, लेकिन कारण (R) सही है।
 - ग. कथन (A) सही है, लेकिन कारण (R) उसकी गलत व्याख्या करता है।
 - घ. कथन (A) तथा कारण (R) दोनों सही हैं तथा कारण (R) कथन (A) की सही व्याख्या करता है।
4. ततौरा और वामीरो अलग कैसे हुए ?
 - क. अपमान के डर से
 - ख. गाँव वालों के दबाव से
 - ग. भूमि के दो भागों में कटने से
 - घ. पशु मेले की भीड़ के कारण
5. गद्यांश के आधार पर निम्नलिखित में से कौन-सा विचार मेल खाता है-
 - क. गाँव वालों के दबाव से
 - ख. भूमि के दो भागों में कटने से
 - ग. जो मनुष्य अपने क्रोध को अपने वश में कर लेता है, वह दूसरों के क्रोध से स्वयमेव बच जाता है।
 - घ. क्रोध में मनुष्य अपने मन की बात नहीं कहता, वह केवल दूसरों का दिल दुखाना चाहता है।

प्र 09 सपनों के से दिन

- क. 'सपनों के से दिन' पाठ के आधार पर लेखक के बचपन का वर्णन करिए।
- ख. 'शिक्षा में बच्चों के ज़्यादा रुचि न लेने का कारण कुछ हद तक उनके माता-पिता भी थे।' इस कथन की पुष्टि कीजिए।
- ग. सपनों के दिन पाठ के आधार पर उस समय और आज की शिक्षा व्यवस्था की तुलना कीजिए।

पदबंध

प्र 010 निम्नलिखित प्रश्नों में रेखांकित पदों का पदबंध भेद बतायें।

1. अयोध्या के राजा दशरथ के चार पुत्र थे।
2. परिश्रम करने वाला व्यक्ति अवश्य सफल होता है

3. राधा धीरे-धीरे चलते हुए वहाँ जा पहुँची।
4. बरगद और पीपल की घनी छाँव से हमें बहुत सुख मिला
5. सभी व्यक्ति इस कार्य के दोषी है।
6. उसका घोड़ा अत्यंत सुंदर, और आज्ञाकारी है।
7. बातें करने वाले बच्चों में से कुछ पकड़े गए।
8. तेजी से दौड़ते हुआ सैनिक निकट आ गया।
9. वह बाजार की ओर आया होगा।
10. विरोध करने वाले व्यक्तियों में से कोई नहीं आया।
11. तुम कब से सो रहे हो
12. आसमान में उड़ता गुब्बारा फट गया।
13. राजीव भागते भागते घर पहुँचा
14. पतंग हवा में उड़ रही थी
15. इतनी लगन से काम करने वाला मैं असफल नहीं हो सकता रेखांकित का पदबंध है
16. बगले के पीछे लगा पेड़ गिर गया।
17. 'जीने मरने वाले मनुष्य तो हो सकते हैं पर सही अर्थों में नहीं।'

इस वाक्य में विशेषण पदबंध क्या होगा -
18. क्रियाविशेषण पदबंध का उदाहरण छाँटिए -

क. 'प्रैक्टिकल आइयोलिस्टों' के जीवन से आदर्श धीरे-धीरे पीछे हटने लगते हैं।
19. 'अकसर हम या तो गुज़रे हुए दिनों की खट्टी-मीठी यादों में उलझे रहते हैं या भविष्य के रंगीन सपने देखते रहते हैं।' रेखांकित पदबंध का भेद है -
20. सस्ता खरीदा हुआ कपड़ा टिकाउ नहीं होता। रेखांकित पदबंध का भेद बताइए।

खण्ड-घ - लेखन

प्र011 पत्र लेखन का अभ्यास कीजिए

- क. अपना विषय बदलने करने के लिए प्रधानाचार्य को प्रार्थना-पत्र लिखें।
- ख. सार्वजनिक स्थानों पर बढ़ते धूम्रपान पर चिंता व्यक्त करने तथा उसे रोकने के लिए हिन्दुस्तान टाइम्स के संपादक को पत्र लिखिए।
- ग. दिल्ली परिवहन निगम के अधिकारी को बस कर्मचारियों के प्रशंसनीय और साहसिक व्यवहार की सूचना देते हुए, उन्हें सम्मानित करने का आग्रह करते हुए पत्र लिखिए।

ई मेल लेखन

- प्र012 क. अपने बैंक खाते में नेट बैंकिंग की सुविधा प्राप्त करने के लिए संबंधित शाखा प्रबंधक को एक ई-मेल लिखिए।
- ख. अपने क्षेत्र में जल भराव की समस्या की ओर ध्यान आकर्षित करते हुए अपने शहर के नगर निगम/नगरपालिका को एक ई-मेल लिखिए।
- ग. आपके मोहल्ले में पानी की आपूर्ति बाधित है, अतः जल उपलब्ध कराने के लिए जल-आपूर्ति विभाग के अध्यक्ष को ई-मेल लिखिए।
- घ. नगर निगम स्वास्थ्य अधिकारी को अपेक्षित कदम उठाने के लिए ई-मेल लिखिए।
- ङ. आपके मोहल्ले के पार्क में अनपेक्षित व्यक्तियों का जमावड़ा रहता है। इस समस्या के निदान के लिए नगर-निगम अधिकारी को ई-मेल लिखिए।

अनुच्छेद लेखन

प्र013

1. सोशल मीडिया
संकेत बिंदु -
 - आधुनिक संचार का साधन
 - लाभ और हानि
 - विद्यार्थियों पर प्रभाव
 - सही उपयोग
2. पर्यावरण संरक्षण
संकेत बिंदु -
 - पर्यावरण का महत्व
 - प्रदूषण के कारण
 - संरक्षण के उपाय
 - हमारी जिम्मेदारी
3. समय का महत्व
संकेत बिंदु -
 - समय अमूल्य है
 - समय का सदुपयोग
 - आलस्य के नुकसान
 - सफलता में भूमिका
4. डिजिटल शिक्षा
संकेत बिंदु -
 - ऑनलाइन पढ़ाई
 - तकनीक का उपयोग
 - लाभ एवं हानियाँ
 - भविष्य की शिक्षा

समासः

नञ् समासः

“नहीं” अर्थ वाले “नञ्” का जब दूसरे शब्द के साथ समास हो जाता है तो वह नञ् समास कहलाता है। यदि बाद में व्यञ्जन हो तो नञ् का “अ” शेष रहता है व बाद में स्वर हो तो अन् रहेगा।

उदाहरण— न ब्राह्मणः = अब्राह्मणः। यहाँ “न” व “ब्राह्मणः” का समास होकर “अब्राह्मणः” शब्द बना व समस्त पद में न का ‘अ’ शेष रहा।

1. न स्वस्थः =
2. न न्यायः =
3. न प्रियः =
4. न सुन्दरः =
5. न उपस्थितः =
6. न उचितः =
7. न आगतः =
8. न उदारः =
9. न ईश्वरवादी =
10. न उद्वेगकरम् =

उपपदतत्पुरुषः समासः (उपपदमतिङ्)

इस समास में पूर्वपद संज्ञा तथा उत्तरपद कृदन्त होता है।

विग्रह करते समय उत्तरपद क्रिया रूप में रहता है तथा क्रिया के बाद "इति" पद जोड़ा जाता है।

समस्त पद में क्रिया का संक्षिप्त रूप रहता है तथा पूर्वपद की विभक्ति का लोप होता है।

समस्त पद के तीनों लिंगों में रूप बनते हैं।

यथाः—	गृहस्थः गृहे तिष्ठति इति।
विद्यार्थी	वद्याम् अर्थयते इति।
अग्रजः	_____
पङ्कजम्	_____
सुलभम्	_____
_____	वृक्षे वसति इति।

_____	अन्तम् करोति इति।
_____	नृन् पाति इति।
_____	ग्रामे वसन्ति इति ते।
सर्वदमनः	_____
शास्त्रज्ञः	_____

-----	मधु पिबति इति ।
-----	गणितम् जानाति इति ।
-----	श्रेयः करोति इति ।
पारगाः	-----
मोदकरम्	-----
दुःखकरम्	-----
पयोदः	-----

तव्यत्, अनीयर्, प्रत्ययौ

संस्कृत में तव्यत् और अनीयर् प्रत्यय, कृत् प्रत्ययों के अंतर्गत आते हैं और इनका प्रयोग “चाहिए” या “योग्य” अर्थ व्यक्त करने के लिए होता है। ये प्रत्यय कर्मवाच्य और भाववाच्य के वाक्यों में प्रयोग किए जाते हैं। इन प्रत्ययों का प्रयोगः सकर्मक धातुओं से कर्म में होता है और अकर्मक धातुओं से भाव में होता है। तव्यत् अनीयर् प्रत्ययों का प्रयोग संस्कृत की क्रिया से विशेषण बनाने के लिए होता है।

तव्यत् प्रत्ययः

इसका प्रयोग कर्मवाच्य और भाववाच्य वाक्यों में “चाहिए” या “योग्य” अर्थ व्यक्त करने के लिए किया जाता है।

जब तव्यत् प्रत्यय क्रिया के साथ जोड़ा जाता है, तो ‘तव्य’ भाग शेष रहता है और ‘त्’ का लोप हो जाता है, जैसे— ‘सेवितव्यः’ ‘सेवन करने योग्य/चाहिए’।

उदाहरण के लिए, ‘शिष्येण गुरुः सेवितव्यः’ का अर्थ है ‘शिष्य को गुरु की सेवा करनी चाहिए’।

तव्यत् – प्रत्ययान्तशब्दाः

धातुः	प्रत्ययः	=	पुल्लिङ्गः	स्त्रीलिङ्गः	नपुंसकलिङ्गः
एध् + तव्यत्		=	एधितव्यः	एधितव्या	एधितव्यम्
भू + तव्यत्		=	भवितव्यः	भवितव्या	भवितव्यम्
पठ् + तव्यत्		=	पठितव्यः	पठितव्या	पठितव्यम्
दा + तव्यत्		=	-----	-----	-----
क्रय् + तव्यत्		=	-----	-----	-----
कृ + तव्यत्		=	-----	-----	-----
पूज् + तव्यत्		=	-----	-----	-----
ग्रह् + तव्यत्		=	-----	-----	-----
चुर् + तव्यत्		=	-----	-----	-----
दृश् + तव्यत् (णिच्)		=	-----	-----	-----
रक्ष् + तव्यत्		=	-----	-----	-----
पच् + तव्यत्		=	-----	-----	-----

हन् + तव्यत्	=	-----	-----	-----
हस् + तव्यत्	=	-----	-----	-----
गम् + तव्यत्	=	-----	-----	-----
नृत् + तव्यत्	=	-----	-----	-----
पा + तव्यत्	=	-----	-----	-----

अनीयर् प्रत्ययः

यह भी तव्यत् प्रत्यय के समानार्थक है और इसका प्रयोग भी “चाहिए” या “योग्य” अर्थ व्यक्त करने के लिए किया जाता है।

जब अनीयर् प्रत्यय क्रिया के साथ जोड़ा जाता है, तो ‘अनीय’ भाग शेष रहता है और ‘र्’ का लोप हो जाता है, जैसे— ‘सेवनीयः’ ‘सेवन करने योग्य’।

उदाहरण के लिए, ‘शिष्येण गुरुः सेवनीयः’ का अर्थ भी ‘शिष्य को गुरु की सेवा करनी चाहिए’ है।

अनीयर् प्रत्ययान्त शब्दों के रूप पुल्लिङ्ग में राम के समान, स्त्रीलिङ्ग में रमा के समान तथा नपुंसकलिङ्ग में फल के समान चलते हैं।

अनीयर् – प्रत्ययान्तशब्दाः

धातुः	प्रत्ययः	=	पुल्लिङ्गः	स्त्रीलिङ्गः	नपुंसकलिङ्गः
एध् + अनीयर्		=	एधनीयः	एधनीया	एधनीयम्
भू + अनीयर्		=	भवनीयः	भवनीया	भवनीयम्
पठ् + अनीयर्		=	पठनीयः	पठनीया	पठनीयम्
दा + अनीयर्		=	-----	-----	-----
क्रय् + अनीयर्		=	-----	-----	-----
कश् + अनीयर्		=	-----	-----	-----
पूज् + अनीयर्		=	-----	-----	-----
ग्रह् + अनीयर्		=	-----	-----	-----
चुर् + अनीयर्		=	-----	-----	-----
दृश् + अनीयर् (णिच्)		=	-----	-----	-----
रक्ष् + अनीयर्		=	-----	-----	-----
पच् + अनीयर्		=	-----	-----	-----
हन् + अनीयर्		=	-----	-----	-----
हस् + अनीयर्		=	-----	-----	-----
गम् + अनीयर्		=	-----	-----	-----
नृत् + अनीयर्		=	-----	-----	-----
पा + अनीयर्		=	-----	-----	-----

वाच्यपरिवर्तनम् (लटलकारे)

संस्कृत भाषा में, सभी भारतीय भाषाओं में और अन्य योरोपीय भाषाओं में वाच्य का महत्वपूर्ण स्थान है। वाच्य के सही ज्ञान के बिना भाषा का आकार नहीं जाना जा सकता है।

संस्कृत – भाषा में तीन वाच्य होते हैं—

1. कर्तृवाच्यम्
2. कर्मवाच्यम्
3. भाववाच्यम्

कर्तृवाच्यम् – कर्तृवाच्य में कर्ता की प्रधानता होती है, इसलिए कर्ता में प्रथमा विभक्ति, कर्म में द्वितीया विभक्ति और क्रिया में लिङ्ग, पुरुष व वचन कर्ता के अनुसार होता है।

कर्तरि प्रथमा यत्र द्वितीयाऽथ च कर्मणि।

कर्तृवाच्यं भवेत् तत्तु क्रिया कर्तृनुसारिणी।।

जैसे— बालकः विद्यालयं गच्छति। बालकौ विद्यालयं गच्छतः। बालकाः विद्यालयं गच्छन्ति।

कर्मवाच्यम् – इसमें कर्म की प्रधानता होती है। अतः क्रिया में लिङ्ग, पुरुष व वचन कर्म के अनुसार होता है। कर्तृवाच्य का कर्ता कर्मवाच्य में तृतीया विभक्ति में होता है और कर्म प्रथमा विभक्ति में होता है। यहाँ सभी धातुएँ आत्मनेपद में होती हैं और बीच में 'य' जुड़ता है।

कर्मणि प्रथमा यत्र तृतीयाऽथ च कर्तरि।

कर्मवाच्यं भवेत् तत्तु क्रिया कर्मानुसारिणी।।

जैसे— छात्रेण विद्यालयः गम्यते। छात्राभ्यां पुस्तके पठ्येते। अस्माभिः पद्यानि पठ्यन्ते।

भाववाच्यम् – अकर्मक धातुओं का कर्मवाच्य के समान रूप का जिसमें प्रयोग दिखलाई देता है, वह भाववाच्य का प्रयोग होता है। यहाँ क्रिया केवल भाव को सूचित करती है। इसलिए वह सदा केवल प्रथम पुरुष एकवचन में ही प्रयुक्त होती है। वह कर्ता के लिङ्ग, पुरुष व वचन का अनुसरण नहीं करती है। जहाँ लिङ्ग अपेक्षित होता है, वहाँ नपुंसकलिङ्ग एकवचन का ही प्रयोग होता है। नृदन्त में क्रिया का प्रयोग करने पर वह नपुंसकलिङ्ग एकवचन में ही होगा। भाववाच्य में प्रथमा विभक्तियुक्त पद दिखाई नहीं देता है। भाववाच्य में भी कर्ता तृतीया विभक्ति में ही प्रयुक्त होता है।

भाववाच्ये क्रिया व्यक्ति न कर्तारं न कर्म च।

तत्र कर्ता तृतीयायां क्रिया भावानुसारिणी।।

भावे तु कर्मवाच्यक्रियैकवचने प्रथमपुरुषे।

सा चेद् भवेद् कृदन्ता क्लीबप्रथमैकवचने स्यात्।।

जैसे—

भवान्/सः पठति। – भवता/तेन पठ्यते।

त्वं पठसि। – त्वया पठ्यते।

अहं पठामि। – मया पठ्यते।

अकर्मक-धातवः

लज्जा सत्ता स्थिति जागरणं, वृद्धि क्षय भय जीवितमरणम्।

शयनक्रीडारुचिदीप्त्यर्थ, धातुगणं तमकर्मकमाहुः।।

कौटिल्यौत्सुक्य भ्रमयत्नग्लानिजरा सामर्थ्य क्षरणम्।

शान्तिध्वनिमज्जनवैकल्यं, जृम्भणरम्भणरोदनहसनम्।।

ग. 10.30 AM (प्रातः) प्रातः वादने।
घ. 11.45 AM (प्रातः) प्रातः वादने।
- प्र012 निम्नलिखितेषु वाक्येषु रेखांकितपदानां विभक्ति-लिंग-वचन-क्रियादृष्ट्या संशोधनं कुरुत।
1. सर्वाः मृगाः धावन्ति।
 2. इमे फलानि मधुराः सन्ति।
 3. तस्य पत्नी गुणवान् अस्ति।
 4. सर्वे महिलाः पुत्रान् इच्छन्ति।
 5. अहं करोति।
 6. त्वं कुत्र गच्छति?
 7. भवान् किं पठसि?
 8. रामः त्वं च गच्छतः।
 9. वृक्षात् फलाः पतन्ति।
 10. मातृवत् परदारसु।
 11. एषः कन्या गुणवती अस्ति।
 12. अहं ह्यः चित्रपटं द्रक्ष्यामि।
 13. वयं परश्वः तत्र न अगच्छाम।
 14. त्वम् अद्यैव ग्रामं गच्छति।
 15. एकः बालिका हसति।
 16. एकः फलं पतति।
 17. मह्यं त्रयः फलानि यच्छ।
 18. तस्य चत्वारि पुत्राः सन्ति।

खण्डः घ (पठितवाचनम्)

पाठः—3 रमणीया हि सृष्टिः एषा।

प्र01 अधोलिखितं नाट्याशं पठित्वा प्रश्नान् उत्तरत।

क. (स्थानं—सरस्तीरम्! समयः— प्रभातवेला। तत्र राजहंसः हंसी च विहरतः। नेपथ्ये काकध्वनिः श्रूयते।)

राजहंसः— “अये! किन्नु खलु सरस्तीरे विहरति मयि केनापि कर्कशैः ‘का का’ शब्दैः वातावरणम् आकुली क्रियते?”

राजहंसी— “भर्तः! काकात् अन्यः को भवितुमर्हति? अस्य वर्णः अपि कृष्णः, कर्म अपि कृष्णम्। मेध्यम् अमेध्यं सर्वमेव भक्षयति। कर्णकटुशब्दैः———”

काकः— (प्रविश्य, सक्रोधम्) “आः किम् उक्तवती भवती? यदि अहं कृष्णवर्णः तर्हि श्रीरामस्य वर्णः कीदृशः? श्रीवासुदेवस्य वर्णः कीदृशः? मुग्धे! अहं तु अतीव कर्तव्यपरायणः। प्रभाते ‘का का’ ध्वनिना सुप्तान् प्रबोधयामि कर्मसु च विनियोजयामि।”

राजहंसः— “हू! किमनेन? एतत् कार्यं तु कुक्कुटोऽपि करोति।”

1 एकपदेन उत्तरत।

- क. काकस्य वर्णः कीदृशः भवति?
- ख. प्रातः काकः कीदृशैः शब्दैः जनान् जागरयति?
- ग. सरस्तीरे कौ विहरतः?

2 पूर्णवाक्येन उत्तरत।

- क. कः कर्तव्यपरायणः अस्ति?
- ख. काकात् अन्यः सुप्तान् कः प्रबोधयति?

3. निर्देशानुसारम् उत्तरत।

- क. ‘अहम्’ इति कर्तृपदस्य क्रियापदं गद्यांशे किं प्रयुक्तम्?
- ख. ‘करोति’ इति क्रियायाः कर्तृपदं किम्?
- ग. ‘कर्कशैः’ इति विशेषणपदस्य विशेष्यपदं किम्?
- घ. ‘क्रोधेन सह’ यस्य स्थाने किं पदं प्रयुक्तम्?

ख. बकः— (प्रविश्य, स्वपक्षौ अवधूय) कथं माम् अपि अधिक्षिपसि। किं ते महत्त्वम्? वर्षर्तौ तु मानसं पलायसे। अहम् एव अत्र वृष्टेः अभिनन्दनं करोमि। कीदृशी तव मैत्री? आपत्काले सरांसि त्यक्त्वा दूरं व्रजसि। वस्तुतः अहमेव शीतले जले बहुकालपर्यन्तम् अविचलं ध्यानमग्नः ‘स्थितप्रज्ञ’ इव तिष्ठामि। दुग्धधवला मे पक्षाः। न जाने कथं माम् अपरिगणयन्तः जनाः चित्रवर्णं अहिभुजं मयूरं “राष्ट्र पक्षी” इति मन्यन्ते। अहमेव योग्यः———

मयूरः— (प्रविश्य साट्टहासम्) सत्यं सत्यम्। अहमेव राष्ट्रपक्षी। को न जानाति तव ध्यानावस्थाम्? मौनं धृत्वा वराकान् मीनान् छलेन अधिगृह्य, क्रूरतया भक्षयसि। धिक् त्वाम्! अवमानितं खलु सर्वं पक्षिकुलं त्वया।

काकः— रे सर्पभक्षक! नर्तनात् अन्यत् किम् अपरं जानासि?

1 एकपदेन उत्तरत।

क. कः वृष्टेः अभिनन्दनं करोति?

ख. अहिभुजः कः अस्ति?

ग. कस्य पक्षाः दुग्धधवलाः?

2 पूर्णवाक्येन उत्तरत।

क. बकः छलेन किं करोति?

ख. कीदृशं मयूरं जनाः 'राष्ट्रपक्षी' इति मन्यन्ते?

3. निर्देशानुसारम् उत्तरत।

क. 'जनाः' इति कर्तृपदस्य क्रियापदं गद्यांशे किं प्रयुक्तम्?

ख. 'तिष्ठामि' इति क्रियायाः कर्तृपदं किम्?

ग. 'शीतले' इति विशेषणपदस्य विशेष्यपदं किम्?

घ. 'अन्यत्' यस्य पदस्य किं पर्यायपदं प्रयुक्तम्?

प्र02 निम्नलिखितं रेखाङ्कितपदम् आधृत्य प्रश्ननिर्माणं कुरुत।

क. काकः एव सर्वत्र सुलभः वर्तते।

ख. मातरः शिशून् कथयन्ति।

ग. अस्माकम् ऐक्यं जगति प्रसिद्धं वर्तते।

घ. अनृतं वदसि चेत् काकः दशेत्।

ङ. अहमेव राष्ट्रपक्षी अस्मि।

च. वर्षर्तौ तु मानसं पलायसे।

छ. जनाः मयूरं 'राष्ट्रपक्षी' मन्यन्ते।

ज. सर्व पक्षिकुलम् त्वया अवमानितम् ।

झ. अहं वृष्टेः अभिनन्दनं करोमि ।

प्र03 अधोलिखितासु पंक्तिषु स्थूलाक्षरपदानाम् प्रसङ्गानुसारम् शुद्धम् अर्थम् चिनुत ।

1. नेपथ्ये काकध्वनिः श्रूयते ।

क. परोक्षे ख. मार्गे ग. प्रवेशद्वारे घ. मञ्चे

2. भो भो वाचाल!

क. चतुर ख. मृदुभाषी ग. अतिभाषी घ. चल

3. छलेन वराकान् मीनान् भक्षयसि ।

क. क्षुद्रान् ख. दयनीयान् ग. वीरान् घ. श्रेष्ठान्

4. रे परभृत!

क. अन्यैः पालित ख. अन्यान् पालयति ग. सेवकः घ. स्वामी

पाठः-4 आज्ञा गुरुणां हि अविचारणीया ।

प्र01 अधोलिखितं गद्यांशं पठित्वा प्रश्नान् उत्तरत ।

क. अथ अन्यस्मिन् अहनि स मेषो यावत् महानसं प्रविशति तावत् सूपकारेण अर्धज्वलितकाष्ठेन ताडितः । ऊर्णाप्रचुरः मेषः वह्निना जाज्वल्यमानशरीरः निकटस्थां अश्वशालां प्रविशति दाहवेदनया च भूमौ लुठति । तस्य क्षितौ प्रलुठतः तृणेषु वह्निज्वालाः समुत्थिताः । ज्वालमालाकुलाः अश्वाः प्राणत्राणाय इतस्ततः अधावन् । तेषु केचिद् दग्धाः केचिद् अर्धदग्धाः केचन च पञ्चत्वं गताः । दग्धां हयशालां विज्ञाय सविषादः राजा शालिहोत्रज्ञानं वैद्यान् आहूय अपृच्छत् 'हा! दग्धाः मे घोटकाः कथं रक्षणीयाः? सपदि उपायः क्रियताम्।' तदा राजवैद्यः प्रोवाच-

कपीनां मेदसा दोषो वह्निदाहसमुद्भवः ।

अश्वानां नाशमभ्येति तमः सूर्योदये यथा ।।

1 एकपदेन उत्तरत ।

क. दाहवेदनया कः भूमौ लुठति?

ख. सूर्योदये किं नश्यति?

2 पूर्णवाक्येन उत्तरत ।

क. किं ज्ञात्वा नृपः सविषादः अभवत्?

ख. अश्वानां वह्निदोषः कथं शाम्यते?

3. निर्देशानुसारम् उत्तरत ।

क. 'ऊर्णाप्रचुरः मेषः' इति अनयोः पदयोः किं पदं विशेषणपदम्?

ख. 'अश्वः' इति शब्दस्य द्वौ पर्यायौ गद्यांशात् चित्वा लिखत ।

ख. कस्मिंश्चित् नगरे चन्द्रो नाम भूपतिः प्रतिवसति स्म। तस्य पुत्रः वानरक्रीडारताः वानरयूथं नित्यमेव विविधैः पदार्थैः पुष्टिं नयन्ति स्म। तस्मिन् राजगृहे बालवाहनयोग्यं मेषयूथम् आसीत्। तेषां मेषाणां मध्ये एको मेषः जिह्मलोलुपतया अहर्निशं महानसं प्रविश्य यत् पश्यति तद् भक्षयति। ते च सूपकाराः यत्किञ्चित् काष्ठं मृण्मयं भाजनं कांस्यं ताम्रपात्रं वा पश्यन्ति तेन तम् आशु ताडयन्ति स्म। मेषस्य सूपकाराणां कलहम् अवेक्ष्य नीतिविदाम्, अग्रणी वानरयूथपतिः अचिन्तयत् 'एतेषां कलहो न वानराणां हिताय।' एवं विचार्य स यूथपः सर्वान् कपीन् आहूय रहसि अवदत् "सूपकाराणां मेषेण सह एषः कलहः नूनं भवतां विनाशकारणं भविष्यति।" उक्तम् हि—

तस्मात् स्यात् कलहो यत्र गृहे नित्यमकारणः।

तद्गृहं जीवितं वाञ्छन् दूरतः परिवर्जयेत्।।

1. एकपदेन उत्तरत।

क. भूपतेः नाम किम् आसीत्?

ख. कः महानसं प्रविश्य यत् पश्यति तद् भक्षयति?

2 पूर्णवाक्येन उत्तरत।

क. केषां कलहः वानराणां हिताय न आसीत्?

ख. सूपकाराः किं कुर्वन्ति स्म?

3. निर्देशानुसारम् उत्तरत।

क. 'दृष्ट्वा' इति अर्थे उपरिलिखिते गद्यांशे किम् पदं प्रयुक्तम्?

ख. 'पुत्राः वानरक्रीडारता' अनयोः पदयोः किम् विशेषणपदं किम् च विशेष्यपदम्?

प्र02 निम्नलिखितं रेखाङ्कितपदम् आधृत्य प्रश्ननिर्माणं कुरुत।

क. सूर्योदये तमः नश्यति।

ख. राजा वैद्यान् आहूय अश्वरक्षार्थम् अपृच्छत्।

ग. राजगृहे बालवाहनयोग्यं मेषयूथम् आसीत्।

घ. यूथपः सर्वान् कपीन् आहूय अवदत्।

प्र03 अधोलिखितश्लोकयोः अन्वयम् उचितपदेन पूरयित्वा उत्तरपुस्तिकायाम् पुनः लिखत।

क. कपीनां मेदसा दोषो वह्निदाहसमुद्भवः।

अश्वानां नाशमभ्येति तमः सूर्योदये यथा।।

अन्वयः— (क) ————— वह्निदाहसमुद्भवः (ख) ————— कपीनां (ग) ————— नाशम् (घ)
————— यथा तमः।

सूर्योदये, अश्वानाम्, मेदसा, दोषः

ख. मित्ररूपा हि रिपवः सम्भाष्यन्ते विचक्षणैः।।

ये हितं वाक्यमुत्सृज्य विपरीतोपसेविनः।।

अन्वयः— ये (क) ————— वाक्यम् (ख) ————— विपरीतोपसेविनः (ते) हि (ग) ————— मित्ररूपाः
रिपवः (घ) ————— ।

विचक्षणैः, उत्सृज्य, हितम्, सम्भाष्यन्ते

प्र04 निम्नलिखितकचनयोः भावम् उपयुक्तशब्दः पूरयत ।

तस्मात् स्यात् कलहो यत्र गृहे नित्यमकारणः ।

तद्गृहं जीवितं वाञ्छन् दूरतः परिवर्जयेत् ।।

अस्य भावः अस्ति— यदि कश्चित् नरः सुखं जीवनं च इच्छति तर्हि सः तत् (क) ————— अवश्यमेव त्यजेत्
यत्र नित्यम् (ख) ————— भवति । यतो हि (ग) ————— कलहः सर्वदा (घ) ————— कारणं
भवति ।

कलहः गृहम्, विनाशस्य, अकारणम्

प्र05 अधोदत्तासु पाठान्तर्गत—कथासु मञ्जूषाशब्द—सहायतया रिक्तस्थानपूर्तिं कृत्वा कथाः पुनः लिखन्तु ।

क. कस्मिंश्चित् नगरे चन्द्रो नाम ————— प्रतिवसति स्म । तस्य पुत्राः ————— वानरयूथं
नित्यमेव विविधैः ————— पुष्टिं नयन्ति स्म । तस्मिन् राजगृहे बालवाहनयोग्यं ————— आसीत् ।

PARTIE A : COMPRÉHENSION ÉCRITE

Q.1 Lisez le texte et répondez aux questions :

Qu'est-ce que c'est que l'intelligence artificielle (IA) ?

C'est "La science et l'ingénierie de la fabrication de machines intelligentes, en particulier de programmes informatiques intelligents", d'après le père de l'intelligence artificielle, John McCarthy.

L'intelligence artificielle, il s'agit de l'intelligence des machines. Aujourd'hui, tout le monde parle de l'IA. Nous ne sommes pas sûrs si l'IA est bonne pour l'humanité ou non. Est-ce que l'IA va remplacer l'intelligence humaine ? Ce débat persiste toujours. En fait, on dit que créer l'intelligence artificielle est pour faciliter la vie des humains.

Avec l'arrivée des ordinateurs dans notre société le travail manuel est considérablement réduit. On pourrait dire qu'on est dépendant des machines dans presque tous les domaines de la vie.

Même s'il existe bien des avantages de l'IA, il y a également des inconvénients. D'abord, les machines n'ont pas d'émotions et de valeurs morales. Elles sont juste programmées. Elles ne peuvent pas modifier leurs réponses aux environnements qui changent. Il n'y a ni contact humain ni créativité.

La création d'une intelligence artificielle est peut-être le plus grand événement de l'humanité. Si utilisé et développé de manière constructive, nous pouvons utiliser l'IA pour éliminer la pauvreté et la faim de la race humaine.

(a) Répondez aux questions suivantes :

(i) Quelle est la définition de l'Intelligence Artificielle ?

- (ii) Quels sont les inconvénients de l' << Intelligence Artificielle" ?
- (iii) Si utilisé de manière constructive, comment l'IA, peut-elle aider la race humaine ?
- (b) Ecrivez vrai ou faux :
 - (i) Selon l'infographie, beaucoup de Français pensent que l'Intelligence Artificielle va améliorer leur vie.
 - (ii) L'IA est simplement l'intelligence des machines.
 - (iii) Nous sommes sûrs que cette intelligence est bonne pour l'humanité.
 - (iv) Selon le texte, le travail manuel est réduit à cause d'IA.
 - (v) La création de l'intelligence artificielle est le plus grand événement de l'humanité.
 - (vi) Il y a beaucoup de créativité et des émotions humaines avec l'IA.
- (c) Trouvez dans le texte :
 - (i) Une préposition -
 - (ii) Un adjectif -
 - (iii) La forme nominale de "créer" -
 - (iv) Le contraire de "enfin"
 - (v) Le synonyme de "substituer"

PARTIE B : EXPRESSION ÉCRITE

- Q.2** (A) Écrivez une lettre à votre cousin(e) en décrivant le film que tu as vu ? (80 mots)
- (B) Écrivez une lettre à votre ami (e) français(e) et expliquez-lui, quel est votre passe- temps favori ? (80 mots)
- (C) Votre ami/e est malade. Ecrivez-lui une lettre en conseillant comment on peut être en pleine forme et en bonne santé. (80 mots)
- Q.3** (A) Vous irez au cinéma pour voir le film le dimanche prochain. Rédigez l'invitation à votre ami/e. (40 mots)
- (B) Vous avez bien réussi à l'examen, Donc vous organisez une fête. Ecrivez l'invitation à votre ami/e. (40 mots)

- Q.4** Complétez le texte a l'aide des mots donnés ci-dessous et récrivez :

(grand rôle, communiquer, de diffuser, un moyen, appelés)

Le média est ----- de diffusion d'information comme la presse écrit, la radio, la télévision, utilisé pour ----- . Ce sont les médias qui sont aussi ----- le quatrième pouvoir. Les médias permettent ----- une information vers un grand nombre d'individus, généralement sans possibilité de personnalisation du message et jouent un ----- dans la formation de l'opinion publique.

- Q.5** Mettez le dialogue en ordre et récrivez :

Le médecin : Non, ce n'est pas grave. Prenez les médicaments régulièrement et vous serez vite guéri.

Le malade : Merci docteur ! Voilà vos honoraires.

Le médecin : Laisse-moi ausculter. Ne vous inquiétez pas. Je vous prescris des médicaments.

Le malade : Bonjour docteur ! Je ne me sens pas bien depuis hier.

Le malade : J'ai eu une insomnie et j'ai aussi de la fièvre.

Le médecin : Qu'est-ce qu'il y a ?

Le malade : Est-ce que c'est grave ?

PARTIE C : GRAMMAIR

Q.6 Mettez les verbes au temps convenables :

- a. Avant-hier, elles _____ au directeur de la société. (se présenter)
- b. Aussitôt qu'elle _____ (arriver), les étudiants se sont levés
- c. Quand Nathalie _____ le vocabulaire, elle pourra mieux comprendre ces textes. (apprendre)
- d. Avant de _____ la réponse, lisez bien la question. (écrire)
- e. les filles _____ de la classe il y a cinq minutes. (sortir)

Q.7 Complétez avec adjectifs démonstratifs ou les pronoms démonstratifs.

- a. Tu aimes _____ livres ? Moi, je préfère _____ qui sont sur la chaise.
- b. _____ musée est plus grand que _____ de mon frère.
- c. Je n'aime pas _____ chemise. Montrez-moi _____.
- d. _____ ne sont pas belles.
- e. De quelle fille parlez-vous? _____ ou _____.

Q.8 Complétez avec adjectifs possessifs ou les pronoms possessifs :

- a. Elle écrit à amie d'enfance mais moi, j'ai perdu (lost) l'adresse
- b. Nous préférons voyager avec parents mais ils veulent voyager sans
- c. Paul connaît bien voisins et Marie connaît bien
- d. Je vois enfants, voyez-vous ?
- e. Nous avons obtenu carte. As-tu obtenu ?

Q.9 Reliez les phrases avec les pronoms relatifs simples ou composés :

- a. Je vous prête la voiture. Mon père me l'aura donnée.
- b. Voilà le bâtiment. On a garé la voiture devant le bâtiment.
- c. La maison est très pratique. Tu habites dans la maison.
- d. Ce sont les sacs. Max y a mis toutes ses affaires.
- e. La photo est très belle. Ils parlent de cette photo.

Q.10 Remplacez les noms soulignés par les pronoms convenables :

- a. Vous êtes allé au cinéma avec vos parents ce soir-là.
- b. Nicole a envoyé le gâteau au chocolat à son ami français.
- c. J'ai rencontré ma tante au marché le week-end dernier.
- d. C'est le directeur qui a invité l'employé au dîner.
- e. Vous êtes plus grand que vos sœurs.

Q.11 Mettez au subjonctif :

- a. Il faut que les enfants (faire) attention pendant le voyage.
- b. Voulez-vous qu'elles (venir) le jour de l'examen ?
- c. J'aimerais bien que tu (finir) le devoir maintenant.
- d. Il croit que je (regarder) les films d'horreur.
- e. Elle souhaite que nous (aller) à la bibliothèque chaque weekend:

PARTIE D : CULTUREL ET CIVILIZATION

Q.12 Répondez aux questions suivantes :

- a. Que peut-on faire pour rester en pleine forme ?
- b. Qui était Napoléon ?
- c. Nommez quelques tâches ménagères.
- d. "La carte musée" sert à quoi ?
- e. Qu'est-ce que c'est " la sécu " ?
- f. Que fait le médecin ?
- g. Nommez quelques bandes dessinées françaises.

Q.13 Complétez les blancs avec la bonne réponse :

- a. On va a la ----- pour acheter des médicaments. (épicerie/pharmacie/dentiste)
- b. "Tournesols" est une peinture fameuse de ----- (Léonardo de Vinci/leoh Ming Pie/ Van Gogh)
- c. Autrefois le musee du Louvre s'appelait ----- (un château médiéval/ musée d'Orsay/le Pyramide)
- d. ----- a écrit "Harry Potter". (Rousseau/J. K. Rowling/ Victor Hugo)
- e. Le Médecin prescrit des ----- (formulaires/ ordonnances/médicaments ?)

Subject : German

Section A: Lesen

I. Lies die Texte.

Das deutsche Schulsystem

In Deutschland beginnt die Schule mit der Grundschule. Die Kinder gehen normalerweise vier Jahre in die Grundschule. Danach wechseln sie in verschiedene Schulformen. Es gibt die Hauptschule, die Realschule und das Gymnasium.

Die Hauptschule endet meistens nach der 9. Klasse. Die Realschule endet nach der 10. Klasse. Das Gymnasium dauert länger und endet mit dem Abitur. Mit dem Abitur können die Schüler an einer Universität studieren.

In Deutschland gibt es auch Gesamtschulen. Dort lernen alle Schüler zusammen, aber auf verschiedenen Niveaus. Viele Schulen sind Ganztagschulen. Das bedeutet, die Schüler bleiben bis zum Nachmittag in der Schule.

Die Schüler haben viele Fächer wie Deutsch, Mathematik, Englisch und Sport. Noten sind sehr wichtig im deutschen Schulsystem. Die Lehrer geben regelmäßig Tests und Prüfungen.

Nach der Schule können die Schüler eine Ausbildung machen oder studieren. Viele Jugendliche machen eine duale Ausbildung. Das bedeutet, sie lernen in einer Firma und gehen auch in die Berufsschule.

1. Wie lange gehen Kinder in die Grundschule?
2. Welche drei Schulformen gibt es nach der Grundschule?
3. Was ist das Abitur?
4. Was bedeutet „Ganztagschule“?
5. Was ist eine duale Ausbildung?

Eine Reise ans Meer

Letzten Sommer bin ich mit meiner Familie ans Meer gefahren. Wir haben eine Woche in einem kleinen Hotel am Strand gewohnt. Jeden Tag haben wir im Meer gebadet und Sandburgen gebaut. Das Wetter war wunderbar: sonnig und warm.

Am Abend sind wir oft am Strand spazieren gegangen. Wir haben Muscheln gesammelt und den Sonnenuntergang beobachtet. Einmal haben wir sogar eine Bootstour gemacht und viele bunte Fische gesehen. Die Woche verging sehr schnell, aber ich habe viele schöne Erinnerungen gesammelt.

Fragen:

1. Wohin ist der Erzähler gereist?
2. Wo haben sie gewohnt?
3. Was haben sie jeden Tag gemacht?

4. Was haben sie am Abend gesammelt?
5. Was haben sie bei der Bootstour gesehen?

Apps im Alltag

Heute benutzen viele Menschen Apps jeden Tag. Es gibt Apps für fast alles: für Nachrichten, Sport, Musik oder Einkaufen. Besonders beliebt sind Messenger-Apps wie WhatsApp oder Telegram. Mit ihnen kann man schnell Nachrichten schreiben oder telefonieren.

Viele Schüler nutzen Lern-Apps. Sie helfen beim Vokabellernen oder beim Matheüben. Auch Apps für Fitness sind sehr bekannt. Man kann damit Schritte zählen, Workouts planen oder sich an das Trinken erinnern.

Natürlich muss man auch vorsichtig sein. Manche Apps sammeln persönliche Daten. Deshalb sollte man nur Apps aus sicheren Quellen herunterladen und immer die Datenschutzregeln lesen.

Apps machen den Alltag oft einfacher – aber manchmal ist es auch gut, das Handy zur Seite zu legen und eine Pause zu machen!

Richtig / Falsch?

1. Es gibt nur Apps für Sport und Musik.
2. Messenger-Apps helfen beim schnellen Kommunizieren.
3. Schüler benutzen Apps, um Filme zu schauen.
4. Fitness-Apps können beim Schritte-Zählen helfen.
5. Es ist egal, woher man eine App herunterlädt.

Meine Lieblings-App

Meine Lieblings-App heißt Duolingo. Mit dieser App lerne ich neue Sprachen. Jeden Tag mache ich kleine Übungen und bekomme Punkte für richtige Antworten. Die App erinnert mich auch, wenn ich eine Übung vergessen habe.

Am meisten gefällt mir, dass die Lektionen kurz sind. So kann ich auch unterwegs im Bus oder in der Pause lernen. Außerdem kann ich meinen Fortschritt sehen und kleine Wettbewerbe mit Freunden machen.

Natürlich ist es wichtig, regelmäßig zu üben. Nur wenn man jeden Tag etwas macht, lernt man schnell besser. Ich finde, Apps wie Duolingo sind eine gute Unterstützung, aber sie ersetzen keinen richtigen Sprachkurs.

Richtig oder Falsch?

1. Der Erzähler benutzt Duolingo, um Mathe zu lernen.
2. In der App bekommt man Punkte für richtige Antworten.
3. Die Lektionen sind sehr lang.
4. Der Erzähler lernt auch unterwegs mit der App.
5. Die App ersetzt einen richtigen Sprachkurs vollständig.

Section B: Schreiben

II. Email schreiben

1. Du hast neulich ein Handy gekauft. Schreib eine Email an deinem Freund/ deiner Freundin und frag er/ sie, welche Apps du herunterladen sollst. Frag ihn/ sie um Ratschläge.

Tipps:

- Begrüßung
 - Was brauchst du? (Ich suche eine App für Deutsch lernen / Fitness / Kochen...)
 - Was soll die App können?
 - Hast du eine Empfehlung?
 - Verabschiedung
2. Anjali hat die eine Email geschickt. Lies die Email und schreib eine Antwort darauf.
Du bedankst sie und gib einen Termin Bescheid, wann du sie besuchen kann.
Betreff: Wie komme ich zu dir nach Hause?
Lieber Markus,
ich hoffe, es geht dir gut!
Ich möchte dich gerne nächste Woche besuchen. Kannst du mir bitte den Weg zu deinem Haus beschreiben? Ich komme mit dem Bus oder der Bahn, also wäre es super, wenn du mir sagst, welche Haltestelle ich nehmen soll und wie ich dann zu Fuß zu dir komme.
Gibt es vielleicht ein Geschäft oder eine Schule in der Nähe, damit ich mich orientieren kann?
Ich freue mich auf deine Antwort.

Liebe Grüße

Anjali

III. Dialog schreiben

Dein Freund will ein Laptop kaufen. Er fragt dich um Rat. Schreib einen Dialog dazu.

Section C: Grammatik

- IV. Schreib den folgenden Texten im Präteritum.

Mein Tag

Ich stehe um 7 Uhr auf und gehe in die Küche. Ich frühstücke schnell und trinke Tee. Dann nehme ich meine Tasche und fahre zur Schule. Ich treffe meine Freunde und wir sprechen viel. Am Nachmittag spiele ich und mache Hausaufgaben.

Im Urlaub

Wir fahren im Sommer nach Goa und wohnen in einem kleinen Hotel. Jeden Tag gehen wir zum Strand und schwimmen im Meer. Wir essen leckeres Essen und trinken Saft. Am Abend machen wir Fotos und sehen den Sonnenuntergang.

V. Präteritum

1. Ich _____ (gehen) gestern zur Schule.
